Tessellations, palindromes, tangrams, oh my! *Women Who Count: Honoring African American Women Mathematicians* is a children's activity book highlighting the lives and work of 29 African American women mathematicians, including Dr. Christine Darden, Mary Jackson, Katherine Johnson, and Dorothy Vaughan from the award-winning book and movie *Hidden Figures*. Although the book is geared toward children in grades 3–8, it is appropriate for all ages. The book includes portrait sketches and biographies for the featured mathematicians, each followed by elementary-school and middle-school activity pages. Children will enjoy uncovering mathematicians' names in word searches, unscrambling math vocabulary words, solving equations to decode interesting facts, using logical thinking to uncover magic squares, locating hidden objects on an “I Spy” page, and more! They will also read about the important contributions of Drs. Martha Euphemia Lofton Haynes, Evelyn Boyd Granville, and Marjorie Lee Browne, the first three African American women to receive doctoral degrees in mathematics. Other women profiled include contemporary mathematicians who will inspire today's children to become tomorrow's leaders. *Women Who Count* is a must-read for parents and children alike!

A top-selling teacher resource line, *The 100+ Series(TM)* features over 100 reproducible activities in each book! --This unique book was created to provide practice exercises for students as they learn cursive writing. Practice material is provided for cursive writers of all levels--those making the transition from manuscript; those needing practice with connective strokes and upper- and lower-case letters; and those whose cursive just needs practice and polish. The book is filled with fun illustrations to capture your students' interest.

This series provides the foundation for a complete phonics program that can be used with basal texts.

If you're looking for a book that covers all the basic reading skills, you have just found it. They're all here: following directions, sequencing, vocabulary development, getting the main idea, drawing conclusions, and more. All topics are presented in a

highly creative manner which requires thinking on the part of your students. We have made the activities highly independent in nature, plus provided you with an answer key.
