This book is an instructive historical record of the First Republic of Ghana and the triumphs and tribulations of successive governments since 1950. It reminds us of the struggle between Osagyefo Dr. Kwame Nkrumah and his political opponents in the period preceding the achievement of political independence for Ghana, the events leading to his overthrow, and its impact on the course of Ghanas history. It is perhaps the most comprehensive history to date of the Rawlings era, the establishment of the Fourth Republic, and the formation of the National Democratic Congress (NDC). The NDC came to eclipse the Convention Peoples Party (CPP) as the rival of the DanquahBusia tradition manifested in the United Gold Coast Convention (UGCC), the countrys oldest national political movement originally formed to pioneer the independence struggle but later eclipsed by the breakaway CPP. The UGCC has undergone several transformations since and today is represented by the New Patriotic Party (NPP). The book well documents the challenges facing independent Ghana, including those related to the growth of democracy nationwide and within political parties. The African liberation struggle, the drama of the Congo crisis of the 1960s, and the Liberian crisis of the 1990s are graphically re-enacted to highlight Ghanas significant role in the events. It is perhaps the best account of the sacrifices Ghana and other ECOWAS countries, particularly Nigeria, made in returning peace to Liberia after a bitter civil war through the successful peacekeeping and peace-enforcement efforts of ECOWAS Monitoring Group (ECOMOG). The book sheds light on Dr. Obed Yao Asamoahs evolution into a politician of no mean achievement during the creation of the Fourth Republic and as the longest serving Foreign Minister and Attorney-General and Minister of Justice Ghana has ever known, offences he held simultaneously between 1993 and 1997.

"Clever, surprisingly fast-paced, and enlightening." —Forbes Most new products fail. So do most businesses. And most of us, if we are honest, have experienced a major setback in our personal or professional lives. So what determines who will bounce back and follow up with a home run? What separates those who keep trading water from those who harness the lessons from their mistakes? One of our most popular business bloggers, Megan McArdle takes insights from emergency room doctors, kindergarten teachers, bankruptcy judges, and venture capitalists to teach us how to reinvent ourselves in the face of failure. The Up Side of Down is a book that just might change the way you lead your life.

Before we can resolve or avoid an ethical problem, we need to understand what makes something ethical. Practical and Professional Ethics: Key Concepts introduces us to a series of real cases where the stakes can be high, the situations complex, and the ethical issues often difficult to see. Drawing on examples from medicine, law, science, and engineering, it offers a practical approach to thinking critically about the ethical problems that occur in our lives and professions, teaching us how to: § focus on the ethical aspects of any situation § distinguish between different kinds of ethical problems § tailor our response to the kind of problem we face § construct arguments we can plausibly attribute to those involved § identify the role of power, discretion and moral blindness By guiding us through the concepts, issues and skills at play when we face an ethical problem, we learn how to find a solution. Ideal for students or professionals, this book provides the grounding required to become a more complex moral thinker, a quality that can be applied in a number of fields and jobs.

Debates on the end-of-life controversy are complex because they seem to hijack national and cultural traditions. Where previous books have focused on ideological grounds, The Politics of Intimacy explores dying as the site where policies are negotiated and implemented. Intimacy comprises the emotional experience of the end of life and how we acknowledge it—or not—through institutions. This process shows that end-of-life controversy relies on the conflict between the individual and these institutions, a relationship that is the cornerstone of Western liberal democracies. Through interviews with mourners, stakeholders, and medical professionals, examination of media debates in France and the Czech Republic, Durnová shows that liberal institutions, in their attempts to accommodate the emotional experience at the end of life, ultimately fail. She describes this deadlock as the "politics of intimacy," revealing that political institutions deploy power through collective acknowledgment of individual emotions but fail to maintain this recognition because of this same experience.

The wide range of approaches to data analysis in qualitative research can seem daunting even for experienced researchers. This handbook is the first to provide a state-of-the art overview of the whole field of QDA; from general analytic strategies used in qualitative research, to approaches specific to particular types of qualitative data, including talk, text, sounds, images and virtual data. The handbook includes chapters on traditional analytic strategies such as grounded theory, content analysis, hermeneutics, phenomenology and narrative analysis, as well as coverage of newer trends like mixed methods, reanalysis and meta-analysis. Practical aspects such as sampling, transcription, working collaboratively, writing and implementation are given close attention, as are theory and theorization, reflexivity, and ethics. Written by a team of experts in qualitative research from around the world, this handbook is an essential compendium for all qualitative researchers and students across the social sciences.
