This introductory text assumes little prior scientific knowledge on the part of the student. It includes sufficient information for some shorter introductory botany courses open to both majors and nonmajors, and is arranged so that certain sections can be omitted without disrupting the overall continuity of the course. Stern emphasizes current interests while presenting basic botanical principles.

Contains 22 inquiry-based labs with minimum cost and equipment needs. Lab investigations range from outdoor to in-lab; experimental to observational to discussion; and partly to wholly student designed. The labs include learning objectives, an introduction and procedures, thought questions, and an extended assignment or investigation.
