Toynbee, published from 1934 – 1961. It received enormous popular attention but according to historian Richard J. Evans, "enjoyed only a brief vogue before disappearing into the obscurity in which it has languished." Toynbee's goal was to trace the development and decay of 19 world civilizations in the historical record, applying his model to each of these civilizations, detailing the stages through which ...

Arnold Toynbee, (born April 14, 1889, London—died Oct. 22, 1975, York, North Yorkshire, Eng.), English historian whose 12-volume A Study of History (1934 – 61) put forward a philosophy of history, based on an analysis of the cyclical development and decline of civilizations, that provoked much discussion.

Arnold Toynbee | British historian | Britannica

A Study of History - Arnold J. Toynbee. In the summer of 1960 I worked as an apprentice in a laboratory at ASEA (nowadays ABB) in V ä ster å s, Sweden. (A total of six months of "real-life" training was one of the requirements to obtain an M.S. degree at the R. Institute of Technology.) I used to spend part of the lunch hour at the very attractive public library.

A Study of History - Arnold J. Toynbee

When the Kingdom of God on Earth began in 1953 according to Baha'i interpretation of history, Arnold Toynbee was just finishing Vol.10. It was as if this Kingdom had been given a fitting history in which to cloth It and give It a context. At the centre of Tonybee ' s thesis is the global imperative to federate. Our survival depends on it.

Arnold Toynbee, A Study of History, Volumes 1-13.

Arnold Toynbee's ten-volume analysis of the rise and fall of civilizations is acknowledged as one of the great achievements of modern scholarship. D.C. Somervell's extraordinary two-volume abridgement has captured the method, atmosphere, texture, and, in many instances, the very words of theoriginal. This volume contains the second half of Toynbee's masterpiece.

One of the most remarkable thinkers of this century, Arnold Toynbee won world-wide recognition as the author of the monumental ten-volume A Study of History. Its publication and phenomenal success brought him fame and the highest praise, as the reading public proclaimed him the most renowned scholar in the world. This thought-provoking, engaging study of Toynbee, written by one of today's most eminent historians, weaves together Toynbee's intellectual accomplishments and the personal difficulties of his private life. Providing both an intimate portrait of a leading thinker and a judicious evaluation of his work and his legacy for the the study of history, William H. McNeill offers both a biography and a commentary on how to write and understand history. Along with an illuminating discussion of the strengths and weaknesses of A Study of History and the countless other works written by Toynbee, McNeill offers a compelling examination of the responses of other historians (including the devastating attack launched by Hugh Trevor-Roper) and Toynbee's attempts to modify his Study to answer these criticisms. McNeill also explores his tormented personal life, including his troubled marriage to Rosalind Murray and the suicide of his son, Anthony. In this sympathetic depiction of a life, both triumphant and tragic, McNeill brings his skills to bear on one of the greatest figures in his field, illuminating a career of rare accomplishment.

Starting with an examination of how historians work, this "Very Short Introduction" aims to explore history in a general, pithy, and accessible manner, rather than to delve into specific periods.

Since its first publication in 2007, John H. Arnold ' s What is Medieval History? has established itself as the leading introduction to the craft of the medieval historian. What is it that medieval historians do? How – and why – do they do it? Arnold discusses the creation of medieval history as a field, the nature of its sources, the intellectual tools used by medievalists, and some key areas of thematic importance from the fall of the Roman Empire to the Reformation. The fascinating case studies include a magical plot against a medieval pope, a fourteenth-century insurrection, and the importance of a kiss exchanged between two tenth-century noblemen. Throughout the book, readers are shown not only what medieval history is, but the cultural and political contexts in which it has been written. This anticipated second edition includes further exploration of the interdisciplinary techniques that can aid medieval historians, such as dialogue with scientists and archaeologists, and addresses some of the challenges – both medieval and modern – of the idea of a ' global middle ages ' . What is Medieval History? continues to demonstrate why the pursuit of medieval history is important not only to the present, but to the future. It is an invaluable guide for students, teachers, researchers and interested general readers.

The history of Israel is a much-debated topic in Old Testament studies. On one side are minimalists who find little of historical value in the Hebrew Bible. On the other side are those who assume the biblical text is a precise historical record. Many serious students of the Bible find themselves between these two positions and would benefit from a careful exploration of issues in Israelite history. This substantive history of Israel textbook values the Bible's historical contribution without overlooking critical issues and challenges. Featuring the latest scholarship, the book introduces students to the current state of research on issues relevant to the study of ancient Israel. The editors and contributors, all top biblical scholars and historians, discuss historical evidence in a readable manner, using both canonical and chronological lenses to explore Israelite history. Illustrative items, such as maps and images, visually support the book's content. Tables and sidebars are also included.

The distinguished historian recalls important public figures, personal friends, and relations as he knew or observed them and offers descriptions, when appropriate, of events in which they participated
