Based on the best part of a decade's reporting, as well as extensive interviews with
those closest to the events (including the murder suspects), and access to trial
evidence, Luke Harding's *A Very Expensive Poison* is the definitive inside story of
the life and death of Alexander Litvinenko. Harding traces the journey of the
nuclear poison across London, from hotel room to nightclub, assassin to victim; it is
a deadly trail that seemingly leads back to the Russian state itself.

REVIEW: A Very Expensive Poison, Old Vic Theatre | Culture ...

We round up of the latest theatre reviews from newspapers across the UK for the biggest shows including plays, musicals, dance, opera and cabaret reviews. Review round ups include West End, London ...

On November 1, 2006, journalist and Russian dissident Alexander Litvinenko was poisoned in London. He died twenty-two days later. The cause of death was Polonium--a rare, lethal, and highly radioactive substance. Here Luke Harding unspools a real-life political assassination story--complete with KGB, CIA, MI6, and Russian mobsters. He shows how Litvinenko's murder foreshadowed the killing of other Kremlin critics, from Washington, DC, to Moscow, and how these are tied to Russia's current misadventures in Ukraine and Syria. In doing so, he becomes a target himself and unearths a chain of corruption and death leading straight to Vladimir Putin. From his investigations of the downing of flight MH17 to the Panama Papers, Harding sheds a terrifying light on Russia's fracturing relationship with the west.

careering through the shadowy world of international espionage from Moscow to Mayfair. Lucy Prebble (Enron, The Effect) brings a shocking story to the stage, adapted from the book by Luke Harding, with an astute mix of real events, vaudeville and thriller. This edition was published to coincide with the World Premiere at the Old Vic Theatre, London, in 2019.

1 November 2006. Alexander Litvinenko is brazenly poisoned in central London. Twenty two days later he dies, killed from the inside. The poison? Polonium; a rare, lethal and highly radioactive substance. His crime? He had made some powerful enemies in Russia. Based on the best part of a decade's reporting, as well as extensive interviews with those closest to the events (including the murder suspects), and access to trial evidence, Luke Harding's *A Very Expensive Poison* is the definitive inside story of the life and death of Alexander Litvinenko. Harding traces the journey of the nuclear poison across London, from hotel room to nightclub, assassin to victim; it is a deadly trail that seemingly leads back to the Russian state itself. Harding argues that Litvinenko's assassination marked the beginning of the deterioration of Moscow's relations with the west and a decade of geo-political disruptions--from the war in Ukraine, a civilian plane shot down, at least 7,000 dead, two million people displaced and a Russian president's defiant rejection of a law-based international order. With Russia's covert war in Ukraine and annexation of the Crimea, Europe and the US face a new Cold War, but with fewer certainties. This is a shocking real-life revenge tragedy with corruption and

Bookmark File PDF A Very Expensive Poison The Definitive Story Of The Murder Of Litvinenko And Russias War With The West

subterfuge at every turn, and walk-on parts from Russian mafia, the KGB, MI6 agents, dedicated British coppers, Russian dissidents. At the heart of this all is an individual and his family torn apart by a ruthless crime.

The first reports seemed absurd. A Russian dissident, formerly an employee of the KGB and its successor, the FSB, had seemingly been poisoned in a London hotel. As Alexander Litvinenko's condition worsened, however, and he was transferred to hospital and placed under armed guard, the story took a sinister turn. On 23 November 2006, Litvinenko died, apparently from polonium-210 radiation poisoning. He himself, in a dramatic statement from his deathbed, accused his former employers at the Kremlin of being responsible for his murder. Who was Alexander Litvinenko? What had happened in Russia since the end of the Cold War to make his life there untenable, and even in severe jeopardy in Britain? How did he really die, and who killed him? In his spokesman and close friend, Alex Goldfarb, and widow Marina, we have two people who know more than anyone about the real Sasha Litvinenko, and about his murder. Their riveting book sheds astonishing light not just on these strange and troubling events but also on the biggest crisis in relations with Russia since the fall of the Berlin Wall.

I like the internet. I like that way of talking to people. It's honest. It's a place where people are free to say anything they like. And most of what they say is about sex. Dani's on a mission. She's just seventeen, hates her parents, skives college and

prefers life in the chatrooms on-line. What she's looking for is someone who is honest and direct. Instead she finds a man twice her age, who thinks she is eleven and a boy.

Award-winning journalist and bestselling author Luke Harding's haunting, brilliant account of the insidious methods used against him by a resurgent Kremlin which led to him becoming the first western reporter to be deported from Russia since the days of the Cold War. FEATURING A NEW FOREWORD FROM THE AUTHOR 'A courageous and explosive exposé.' ORLANDO FIGES 'Luke Harding is one of the best reporters in the world.' ROBERT SAVIANO 'An essential read.' NEW STATESMAN In 2007, Luke Harding arrived in Moscow to take up a new job as a correspondent for the British newspaper the Guardian. Within months, mysterious agents from Russia's Federal Security Service - the successor to the KGB - had broken into his flat. He found himself tailed by men in cheap leather jackets, bugged, and even summoned to Lefortovo, the KGB's notorious prison. The break-in was the beginning of an extraordinary psychological war against the journalist and his family. Vladimir Putin's spies used tactics developed by the KGB and perfected in the 1970s by the Stasi, East Germany's sinister secret police. This clandestine campaign burst into the open in 2011 when the Kremlin expelled Harding from Moscow. Luke Harding's Mafia State gives a unique, personal and compelling portrait of today's Russia, two decades after the end of communism, that reads like a spy thriller.

A thrilling account of how Russia is waging a hidden war against America and the West, using espionage, corruption, fake news, and KGB-style murder March 2018. Two Russian assassins arrive in a provincial English city to kill a former officer from Russia's GRU intelligence agency. His crime? Passing secrets to British spies. The poison? A lethal nerve agent, novichok. The attempted execution was a reminder - as if one were needed - of Russia's contempt for international norms. The Soviet Union and its doctrine are long gone, but the playbook used by the Kremlin's spies during that long confrontation with the West is back. And the underlying goal remains the same: to undermine democracy and exploit divisions within American and European society and politics. Moscow's support for Donald Trump in the 2016 presidential election has grown into the biggest political scandal of modern times. Its American players are well-known. In *Shadow State*, award-winning journalist and bestselling author Luke Harding reveals the Russians behind the story: the spies, hackers and internet trolls. Harding charts how the Kremlin has updated Communist-era methods of influence and propaganda for the age of Facebook and Twitter, and considers the compelling question of our age: what exactly does Vladimir Putin have on President Trump? Similar to those of the Cold War, Putin's ambitions are truly global. His emissaries include oligarchs, bankers, lawyers, mercenaries, and agents of influence. They roam from Salisbury to Helsinki, Ukraine to Central Africa, London to Washington, D.C. *Shadow State* is the singular account of how the Kremlin seeks to reshape the world, to divide the US from its

European friends, and to remake America in its own dark and kleptocratic image. This is an essential read for anyone who wants to understand how our politics came to be so chaotic and divided. Nothing less than the future of Western democracy is at stake.

The explosive story of the poisoning of the former Russian spy Sergei Skripal and what it reveals about the growing clandestine conflict between the West and Russia Salisbury, England: March 4, 2018. Slumped on a bench, paralyzed and barely able to breathe, were a former Russian intelligence officer named Sergei Skripal and his daughter, Yulia. Sergei had been living a quiet life in England since 2010, when he was expelled from Russia as part of a spy swap; he had been serving a lengthy prison sentence for working secretly for the British intelligence agency MI6. On this Sunday afternoon, he and his daughter had just finished lunch at a local restaurant when they started to feel faint. Within minutes they were close to death. The Skripals had been poisoned, not with a familiar toxin but with Novichok, a deadly nerve agent developed in southern Russia. Was this a message from the Kremlin that traitors would not escape violent death, even on British soil? As Sergei and Yulia fought for their lives, and the British government and their allies sought answers, relations between the West and Russia descended to a new low. The Skripal Files is a remarkable and definitive account of Sergei Skripal's story, which lays bare the new spy war between Russia and the West. Mark Urban, the diplomatic and defense editor for the BBC, met with Skripal in the months

Bookmark File PDF A Very Expensive Poison The Definitive Story Of The Murder Of Litvinenko And Russias War With The West

before his poisoning, learning about his career in Russian military intelligence, how he became a British agent, his imprisonment in Russia, and the events that led to his release. Skripal's first-hand accounts and experiences reveal the high stakes of a new spy game that harks back to the chilliest days of the Cold War.

"December 2016. Luke Harding, the Guardian reporter and former Moscow bureau chief, quietly meets former MI6 officer Christopher Steele in a London pub to discuss President-elect Donald Trump's Russia connections. A month later, Steele's now-famous dossier sparks what may be the biggest scandal of the modern era. The names of the Americans involved are well-known, but here Harding also shines a light on powerful Russian figures whose motivations and instructions may have been coming from the highest echelons of the Kremlin. Harding takes the reader through every bizarre and disquieting detail of the Trump-Russia story, an event so huge it involves international espionage, off-shore banks, sketchy real estate deals, the Miss Universe pageant, mobsters, money laundering, poisoned dissidents, computer hacking, and the most shocking election in American history."

The only difference between me and the people judging me is they weren't smart enough to do what we did. One of the most infamous scandals in financial history becomes a theatrical epic. At once a case study and an allegory, the play charts the notorious rise and fall of Enron and its founding partners Ken Lay and Jeffrey

Bookmark File PDF A Very Expensive Poison The Definitive Story Of The Murder Of Litvinenko And Russias War With The West

Skilling, who became 'the most vilified figure from the financial scandal of the century.' This Student Edition features expert and helpful annotation, including a scene-by-scene summary, a detailed commentary on the dramatic, social and political context, and on the themes, characters, language and structure of the play, as well as a list of suggested reading and questions for further study and a review of performance history. Mixing classical tragedy with savage comedy, Enron follows a group of flawed men and women in a narrative of greed and loss which reviews the tumultuous 1990s and casts a new light on the financial turmoil in which the world finds itself in 2009. The play was Lucy Prebble's first work for the stage since her debut work *The Sugar Syndrome*, winner of the George Devine and Critic's Circle Awards for Most Promising New Playwright. Produced by Headlong, *Enron* premiered at Chichester's Minerva Theatre on 11 July 2009 and opened at the Royal Court Theatre, London, in September, before transferring to London's West End and to Broadway in 2010.
