NEW EDITION, REVISED AND UPDATED When it comes to creating ideas, we hold ourselves back. That ' s because inside each of us is an internal editor whose job is to forever polish our thoughts so we sound smart and in control and so we fit into society. But what happens when we encounter problems where such conventional thinking fails us? How do we get unstuck? For Mark Levy, the answer is freewriting, a technique he ' s used for years to solve all types of business problems and generate ideas for books, articles, and blog posts. Freewriting is deceptively simple: start writing as fast as you can, for as long as you can, about a subject you care deeply about, while ignoring the standard rules of grammar and spelling. Your internal editor won ' t be able to keep up with your output—you ' ll generate breakthrough ideas and solutions that you couldn ' t have created any other way. Levy shares his six secrets to freewriting as well as fifteen problem-solving and creativity-stimulating principles you can use if you need more firepower—seven of which are new to this edition. Also new to this edition: an extensive section on how to refine your raw freewriting into something you can share with the world.

Transformation Mechanism," and other persuasion tactics used by pitchmen, carneys, and conjurors to convince people to their way of thinking. Along with coauthor Mark Levy, Bauer has taken these ethical, entertainment-based techniques, and has made them practical for everyday use—capable of influencing one person or a thousand, in business and in life. Joel Bauer (Los Angeles, CA) is an expert in performance-based live marketing who The Wall Street Journal online referred to as "undoubtedly the chairman of the board" of corporate tradeshow rain-making. Mark Levy (Chester, NJ) has written for the New York Times, has authored or coauthored three books, and is the founder of Levy Innovation, a consulting firm that makes individuals and companies memorable.

“ Mac King is a god. ” —Penn and Teller Tricks with Your Head is the world ’ s greatest (and only) collection of hilarious, mystifying, and sometimes repulsive magic tricks that you can perform with your very own head. If you ’ ve only thought of your head as a receptacle for so-called higher learning, or as a structure for keeping your haircut from falling into your body cavity, rejoice! Now you can use that ten-pound meatball between your shoulders as a source of ribald entertainment. Best of all, when you learn to perform a head trick, you can never be caught without your prop. Mac King and Mark Levy have perfected the ultimate mix of head games (literally) in this clever illustrated volume that teaches you how to: \* Make your head disappear \* Penetrate your skull with a drinking straw \* Make a french fry vanish up your nose \* Read someone ’ s mind \* Jab a fork in your eye

The key to good and efficient writing lies in the intelligent organisation of ideas and notes. This book helps students, academics and nonfiction writers to get more done, write intelligent texts and learn for the long run. It teaches you how to take smart notes and ensure they bring you and your projects forward. The Take Smart Notes principle is based on established psychological insight and draws from a tried and tested note-taking-technique. This is the first comprehensive guide and description of this system in English, and not only does it explain how it works, but also why. It suits students and academics in the social sciences and humanities, nonfiction writers and others who are in the business of reading, thinking and writing. Instead of wasting your time searching for notes, quotes or references, you can focus on what really counts: thinking, understanding and developing new ideas in writing. It does not matter if you prefer taking notes with pen and paper or on a computer, be it Windows, Mac or Linux. And you can start right away.
