This book is a student reference guide book for the MD/PhD application process. It begins with an overview of the structure of a typical MD/PhD program as well as student outcomes and career choices of MD/PhD graduates. Next is an outline of the academic and extracurricular prerequisites as well as the basic components of the application itself. The authors then address the factors that MD/PhD students should consider when selecting schools to which to apply. Continuing to the main application, examples are provided of all the different essay types that MD/PhD applicants will encounter along with comments on how to address the deliberately vague and abstract prompts while tailoring the responses to the combined-degree program. Most uniquely, included is a very detailed explanation of the many types of interviews that applicants will encounter and how to prepare for them by integrating extensive personal experience and first-hand discussions with MD/PhD program leaders. Lastly, there will be a discussion on how to cope with the year-long timeline that constitutes this application process and provide guidance regarding properly responding to acceptances and waitlist offers. Written by a team of authors each experienced with the MD/PhD application, this book aids the prospective applicant with navigating this challenging process.

Updated with current facts, figures, and fees, this directory profiles all AMA, AOA, and ADA accredited medical, osteopathic, and dental schools in the United States and Canada. Every school profile provides up-to-date information on tuitions and fees, admission requirements, application procedures, available financial aid, a curriculum description, grading and promotion policies, teaching and library facilities, housing facilities, and special features and programs. In addition to its comprehensive directory section, this book is also a practical guidance manual for students who are contemplating careers in medicine and dentistry. It presents MCAT and DAT test-taking advice, and sample essays written by medical school applicants. Additional features include a model MCAT (Medical College Admission Test) with an answer key for self-scoring, selected questions with answers from recent DATs (Dental College Admission Tests), a self-assessment admission profile, a sample medical school application form, detailed advice on medical career opportunities for women and minorities, and much more.

The Premed Playbook: Guide to the Medical School Personal Statement helps guide students in crafting their stories for the medical school Admission Committees. It's not only a collection of essays from students who got into top schools, but is a showcase of essays that started badly and were honed to tell great stories. Ryan Gray, MD shares the stories of students who likely didn't have a shot, but ultimately succeed, in part because of the advice laid out in The Premed Playbook: Guide to the Medical School Personal Statement. They had to fight their way into medical school—and told a great story to do it.
