dealt with in a serenely personal and free-flowing style, displaying a deep and abiding love for the English language. For the reader, there is something to dip into and find relevant, even at a random flipping-through of the pages. This is a book to be kept by your bedside and referred to whenever you're feeling low. Your spirits will surely rise.

This book explores the transformation of Indian media in the context of two major developments: globalisation (which Sociologist Anthony Giddens terms as being 'revolutionary') and advances in communication technologies. It is rich in empirical details of how the Indian media has evolved in the past two decades, particularly in the context of potential to transform, construct and nurture particular identities in response to globalisation. The study of the transformation of Indian media is significant because not only has globalisation allowed access to a host of things hitherto represented as 'foreign' to Indian culture by the media, but it has also opened the floodgates for foreign media. Adopting a multi-disciplinary approach, this book looks at the role of media in purveying political, economic and cultural identities, the current definitions of 'we', 'they', and the 'other', and how the 'other' is perceived in contemporary India. The discussions cover all forms of media, that is, newspaper, films, radio, television and online media, along with media policy and other economic challenges facing the media.

This book documents the history of Tamil cinema, one of the most colossal film industries in the world, and studies the major studios of Madras, the largest outside classical Hollywood in the private sector. It engages with five major studios of Madras—Modern Theatres, AVM,

Gemini, Vijaya-Vauhini, and Prasad through the origins of their founders, and explicates how their history influenced the narratives, genre, and ideology of the canonical films made in Madras studios, arguing for their lasting influence on Tamil cinema. Based on rare primary and secondary materials, and oral history, this book engages with Tamil cinema at the intersection of its industrial, cultural, and socio-political history to argue for its specificity in terms of its aesthetics and its belief in the potential of the medium to mobilize audiences for ideology, politics, and reflexivity.

This Volume Brings Together Fourteen Essays Written By Literary Critics, Historians And Political Theorists Which Look At The Early Novels In Different Indian Languages And The Circumstances Of Their Production. Most Of The Essays Challenge The Old Assumption That The Novel In India Was A Genre Directly Imported From The West, And Address The Issues Of Plural Heritage And The Economic And Social Determinants That Interacted To Make The Shaping Of This Literary Form A Tangled And Complex Process In Our Languages.

This book brings together historical and ethnographic perspectives on Indian consumer identities. Through an in-depth analysis of local, regional, and national histories of marketing, regulatory bodies, public and domestic practices, this interdisciplinary volume charts the emergence of Indian consumer society and discusses commodity consumption as a main feature of Indian modernity. The nationalist discourse was formed by starting with the morality of consumption patterns feeding into middle-class identity; the chapters demonstrate how different strata of society were targeted as markets for everyday commodities associated with

global lifestyles early on. A section of the book illustrates how a new group of professionals engaged in advertising trying to create a market shaped tastes and discourses and how campaigns provided a range of consumers with guidance on "modern lifestyles". Chapters discussing advertisements for consumables, like coffee and cooking oil, show these to be part of new public cultures. The ethnographic chapters focus on contemporary practices and consumption as a main marker of class, caste and community. Throughout the book consumption is shown to determine communal identities, but some chapters also highlight how it reshapes intimate relationships. The chapters explore the middle-class family, microcredit schemes, and metropolitan youth cultures as sites in which consumer citizenship is realised. The book will be of interest to readers from a range of disciplines, including anthropology, history, geography, sociology, South Asian studies, and visual cultures.

Rodeo researcher and writer Reba Perry Blakely discusses Indian history in the State of Washington, especially the Treaty of Walla Walla. She also attempts to interest the National Cowboy Hall of Fame in financing a book on the subject that she proposes to write and talks about her own family history.

Gopulu, a celebrity Tamil caricaturist, created all-time classics for about 20 years in the popular Tamil weekly Ananda Vikatan. Being pantomimes, silent jokes, they could be enjoyed in magazines of any language. With Dr. R. Natarajan's crisp, humorous one-liners, they are transformed here as illustrated management lessons. There do exist illustrated books in the management den. But this is genetically different. While cartoons of other books depict

management thoughts of an author, here a cartoonist's silent impressions of the behaviour of people are articulated by an author from the management angle. This revival of a celebrity's jokes of the past, infused with modern managerial bearings, will serve as a pictorial guide to practising managers and also as an effective, illustrated textbook to the students in business schools.
