This is definitely not a book for the timid, the faint- hearted and shy. What Khana Sutra really is, is the starting point of letting all your fantasies and inner desires come to life. It is a book that celebrates life and the creation of life sans the censorship whilst having fun in the process. It is a book of love and recipes to celebrate that love. Khana Sutra is a cheeky exploration of the past when subjects such as these were not taboo and could be openly discussed in civilized society. It started off as a ‘ cookbook ’ but grew beyond those boundaries. These are tried and tested recipes. Some have been documented in historical books and others have been handed down orally over the generations. They are easy to prepare and the trivia is fun to read. Well, not as much fun as you are going to have once you have tried out the recipes!
