This new edition is written with two major objectives: (1) to help readers understand audit decision making and evidence accumulation, and (2) reflect changes in the profession by integrating assurance and attestation service as well as risk issues. This 6th edition introduces two new tools that practitioners use to assess risk and to identify assurance service opportunities: Client Strategy Templates and Balanced Scorecards.

"Includes coverage of international standards and global auditing issues, in addition to coverage of PCAOB Auditing Standards, the risk assessment SAs, the Sarbanes/Oxley Act, and Section 404 audits."

Focusing on auditing as a judgment process, this unique textbook helps readers strike the balance between understanding auditing theory and how an audit plays out in reality. The only textbook to provide complete coverage of both the International Auditing and Assurance Standards Board and the Public Company Accounting Oversight Board, Auditing reflects the contemporary evolution of the audit process. New additions to the book include expert updates on key topics, such as the audit of accounting estimates, group audit, and the Integrated Audit. Supplemented by extra on-line resources, students using this established text will be well-equipped to be effective auditors and to understand the role of auditing in the business world.

This innovative, easy-to-understand best-seller offers complete coverage of, and an integrated approach to, the entire audit process—taking readers step-by-step through each audit cycle, then showing how each step relates to the process as a whole. A six-part organization covers: the auditing profession, the audit process, application of the audit process to the sales and collection cycle, application of the auditing process to other cycles, completing the audit, and other assurance and non-assurance services. For individuals interested in an exciting and new auditing education.

This innovative, easy-to-understand best-seller offers complete coverage of the entire audit process, taking learners step-by-step through each audit cycle, then showing how each step relates to the process as a whole. A five-part organization covers the auditing profession, the audit process, application of the audit process to the sales and collection cycle, application of the audit process to other cycles, and completing the audit. For individuals and firms in need of information on the latest audit technology, current audit practices, and the latest auditing research.
