So, the stage is set for a Europe ruled by Incas and, when the Aztecs arrive on the scene, for a great war that will change history forever. *Civilisations* is a wildly entertaining counterfactual story about the modern world, colonisation, empire-building and the eternal human quest for domination. It is an electrifying novel by one of Europe's most exciting writers. 'What if the 1492 'discovery' of America...alerted the Incas to the existence of a land to the east that might be ripe for conquest?' *Literary Review*
