police are put on the trail of a baby-faced new graduate in the Milanese banking sector. As the pursuit accelerates through back streets and skyscrapers, it becomes clear that there is more to organised crime than getting your hands dirty.

Roland Barthes (1915-1980) was a major French writer, literary theorist and critic of French culture and society. His classic works include *Mythologies* and *Camera Lucida*. *Criticism and Truth* is a brilliant discussion of the language of literary criticism and a key work in the Barthes canon. It is a cultural, linguistic and intellectual challenge to those who believe in the clarity, flexibility and neutrality of language, couched in Barthes' own inimitable and provocative style.

He was the consummate designer of film architecture on a grand scale. He was known for his visual flair and timeless innovation, a man who meticulously preplanned the color and design of each film through a series of continuity sketches that made clear camera angles, lighting, and the actors' positions for each scene, translating dramatic conventions of the stage to the new capabilities of film. Here is the long-awaited book on William Cameron Menzies, Hollywood's first and greatest production

designer, a job title David O. Selznick invented for Menzies' extraordinary, all-encompassing, Academy Award-winning work on *Gone With the Wind* (which he effectively co-directed). It was Menzies--winner of the first-ever Academy Award for Art Direction, and who was as well a director (fourteen pictures) and a producer (twelve pictures)--who changed the way movies were (and still are) made, in a career that spanned four decades, from the 1920s through the 1950s. Now, James Curtis, acclaimed film historian and biographer, writes of Menzies' life and work as the most influential designer in the history of film. Interviewing colleagues, actors, directors, friends, and family, and with full access to the Menzies family collection of artwork and unpublished writing, Curtis gives us the path-finding work of the movies' most daring and dynamic production designer: his evolution as artist, art director, production designer, and director. Here is a portrait of a man in his time that makes clear how the movies were forever transformed by his startling, visionary work.--Adapted from book jacket.

This book is not only a major twentieth-century contribution to Dostoevsky's studies, but also one of the most important theories of the novel produced in our century. As a modern reinterpretation of poetics, it bears
