Examines the diagnostic role of cytogenetics in improving the outcome of assisted reproductive technologies (ART). Covers basics of genetics, followed by investigative cytogenetics, applied cytogenetics, recent advances, preimplantation and prenatal cytogenetics.

This book summarises the main discoveries, management insights and policy initiatives in the science, management and policy arenas associated with temperate woodlands in Australia. More than 60 of Australia's leading researchers, policy makers and natural resource managers have contributed to the volume. It features new perspectives on the integration of woodland management and agricultural production, including the latest thinking about whole of paddock restoration and carbon farming, as well as financial and social incentive schemes to promote woodland conservation and management. *Temperate Woodland Conservation and Management* will be a key supporting aid for farmers, natural resource managers, policy makers, and people involved in NGO landscape restoration and management.

One program that ensures success for all students

Students can master key concepts and earn a better grade with the thought-provoking exercises found in this study guide. Study advice, tables, quizzes, and crossword puzzles help students test their understanding of biology. The Study Guide also includes references to student media activities on the Essential Biology CD-ROM and Website.
