Explores geographic information available through several sources including the Internet and satellite technology, covering such topics as map basics, geographic information systems, and geographical standards.

The Geography Colouring Book provides a reference book of facts regarding population, land size, languages, religions, exports, climate, etc., plus information about unique geographic features and events of historic significance. Each section begins with a plate containing a political map, a physical map and regional maps. Through active participation by colouring, the student can gain a broader understanding of the material and retain more information. The text also includes a new Geographical Dictionary and covers the five nations rising out of the former Yugoslavia. It aids in recognizing countries by shape as well as locaton and gaining a sense of the relative sizes of nations and states \*Each section begins with a plate containing a political map, a physical map, and regional maps \*Through active participation, coloring the maps, students gain a broader understanding of the material and retain more information

The study guide retains the exercises that have made it a useful pedagogical tool over three editions. Mapping exercises help the students understand and explain geographic patterns by employing the skills geographers themselves routinely use.

A new series of full-coverage resources developed for the AQA 2016 A/AS Level Geography specification. This full-colour Student Book covers all core and optional units for the AQA AS and A Level Geography specification for first teaching from September 2016. Students are encouraged to develop links between physical and human topics, understand systems, processes, and acquire geographical skills. Helping to bridge the gap from GCSE to A Level, it also provides support for fieldwork skills and for the geographical investigation at A Level. A 'Maths for geographers' feature helps students develop and apply their mathematical and statistical skills, and a range of assessment-style questions support students in developing their exam skills.
