This book is your implementation guide for BusinessObjects XI 3.1 Tools within SAP NetWeaver 7.0. After introducing you to the SAP BusinessObjects Enterprise platform and important SAP BusinessObjects BI client tools, you ' ll work through easy-to-use but still technically detailed information on how to set up these tools. In addition, you ' ll find step-by-step instructions and a chapter on troubleshooting issues to round off this convenient guide. Readers will quickly uncover the SAP BusinessObjects Enterprise components and the purpose of each of the SAP BusinessObjects BI solutions client tools. Then, learn how best to install and configure the SAP BusinessObjects server and client components, and create your first report, ad-hoc analysis, or dashboard on top of your SAP data. You'll understand how the metadata from the underlying SAP system is being mapped to Crystal Reports, Web Intelligence, Query as a Web Service, Live Office, Xcelsius, or InfoView and benefit from proven troubleshooting techniques as well as tips to help improve the performance of your solutions. With highly-detailed, step-by-step tutorials featuring numerous screenshots, and best practices to guide you through integrating BusinessObjects with SAP NetWeaver, this book is guaranteed to be an invaluable resource.

Here, readers will learn how to revolutionize their data presentation with SAP BusinessObjects Web Intelligence 4.0. You can either build a foundational understanding of WebI by beginning with the fundamentals; or you can jump straight into the advanced discussions that are new to the latest release.

The authorized guide to the latest edition of the #1 business intelligence software product - Crystal Reports. More than 16 million licenses of Crystal Reports have been shipped to date. This book is a reference designed to provide hands-on guidance for the latest release of the product suite. The latest version of Crystal Reports and the Business Objects enterprise reporting suite delivers vast product enhancements and a tighter integration that will drive upgrades from licensees. Brand new features (e.g. Dynamic and Cascading Parameter Generation) will also appeal to new audiences. Over 1 million new Business Intelligence licensees will be migrating to the Crystal Enterprise Reporting platform, as this is the first release of the software with the existing Business Objects (BO) products being integrated into the Crystal infrastructure. As Business Objects insiders, the authors bring unique and valuable real-world perspectives on implementations and uses of the Crystal Reports product. The book also includes content, tutorials and samples for reporting within the Microsoft Visual Studio.NET and J2EE development environments and also on top of the SAP Business Information Warehouse (BW) and the Peoplesoft platform. Advanced content on report distribution and integration into the secured managed reporting solution known as Business Objects Enterprise XI, is also now included in this definitive user guide with coverage on the new Web Services SDK.

Over 90 simple and incredibly effective recipes for transforming your business data into exciting dashboards with SAP BusinessObjects Dashboards 4.0 Xcelsius with this book and eBook.
