We sketches the landscape of today's changing job environment and gives managers and individual employees alike a road map to full engagement. Anchored with specific metrics, based on studies of 2 million people, includes engagement, retention, customer loyalty, and profitability Scientific research and academic insights are translated into actionable steps Authors have extensive experience in cutting-edge human resources solutions Achieve breakthrough results for yourself and your organization with the power of full engagement from We.

As a serial entrepreneur, Kevin Kruse has seen time and again that the leadership practices that actually work are the opposite of what is commonly taught and implemented. Close Your Open Door Policy shows how a contrarian approach can be a better, faster, and easier way to succeed as a leader. Chapter by chapter, Kruse focuses on a piece of popular wisdom, then shows with real-world case studies and quantitative research that the opposite approach will lead to better results, encouraging leaders to play favorites, stay out of meetings, and, of course, close their open doors.

Employee engagement is a novel concept that has been building momentum in recent years. Understanding Employee Engagement: Theory, Research, and Practice exposes the science and practice of employee engagement. Grounded in theory and empirical research, this book debates the definitions of engagement, provides a comprehensive evaluation of empirical findings in the engagement field including a focus on international findings, and offers implications for science and practice in organizations. Employers can learn how to foster and drive engagement to increase productivity and happiness, and researchers can master the existing engagement literature and begin to study the many propositions and new models Zinta S. Byrne, Ph.D. proposes throughout the book.

America has become a nation of suburbs. Confronting the popular image of suburbia as simply a refuge for affluent whites, The New Suburban History rejects the stereotypes of a conformist and conflict-free suburbia. The seemingly calm streets of suburbia were, in fact, battlegrounds over race, class, and politics. With this collection, Kevin Kruse and Thomas Sugrue argue that suburbia must be understood as a central factor in the modern American experience. Kruse and Sugrue here collect ten essays—augmented by their provocative introduction—that challenge our understanding of suburbia. Drawing from original research on suburbs across the country, the contributors recast important political and social issues in the context of suburbanization. Their essays reveal the role suburbs have played in the transformation of American liberalism and conservatism; the contentious politics of race, class, and ethnicity; and debates about the environment, land use, and taxation. The contributors move the history of African Americans, Latinos, Asians, and blue-collar workers from the margins to the mainstream of suburban history. From this broad perspective, these innovative historians explore the way suburbs affect—and are affected by—central cities, competing suburbs, and entire regions. The results, they show, are far-reaching: the emergence of a suburban America has reshaped national politics, fostered new social movements, and remade the American landscape. The New Suburban History offers nothing less than a new American history—one that claims the nation cannot be fully understood without a history of American suburbs at its very center.

"A gripping and troubling account of the origins of our turbulent times. " —Jill Lepore, author of These Truths: A History of the United States When—and how—did America become so polarized? In this masterful history, leading historians Kevin M. Kruse and Julian E. Zelizer uncover the origins of our current moment. It all starts in 1974 with the Watergate crisis, the OPEC oil embargo, desegregation busing riots in Boston, and the wind-down of the Vietnam War. What follows is the story of our own lifetimes. It is the story of ever-widening historical fault lines over economic inequality, race, gender, and sexual norms firing up a polarized political landscape. It is also the story of profound transformations of the media and our political system fueling the fire. Kruse and Zelizer ' s Fault Lines is a master class in national divisions nearly five decades in the making.

How would your life change if you lived each day fully motivated? New York Times bestselling author and successful entrepreneur, Kevin Kruse, shares his personal collection of favorite quotes from ancient philosophers to modern day thinkers. Read one quote a day as a daily vitamin of inspiration, or read them in one sitting to break through negative thinking. Free bonuses: BONUS: Access To Online Video "6 Things Successful People Do To Get & Stay Motivated" BONUS: 3 Activities To Discover Your Life's True Purpose About the author: Kevin Kruse is a New York Times, Wall Street Journal, and USA Today bestselling author. In pursuit of the American Dream, Kevin started his first company when he was just 22 years old. He worked around the clock, living out of his one-room office and showering each day at the YMCA, before giving up a year later deeply in debt. Later, after discovering the power of Wholehearted Leadership, Kevin went on to build and sell several multimillion dollar companies, winning Inc 500 and Best Place to Work awards along the way.

Helps you recognize and understand the impact of positive employee engagement Helps you attract and retain the best employees Employee Engagement For Dummies is for business leaders at all levels who are looking to better engage their employees and increase morale and productivity.

The provocative and authoritative history of the origins of Christian America in the New Deal era We're often told that the United States is, was, and always has been a Christian nation. But in One Nation Under God, historian Kevin M. Kruse reveals that the belief that America is fundamentally and formally Christian originated in the 1930s. To fight the "slavery" of FDR's New Deal, businessmen enlisted religious activists in a campaign for "freedom under God" that culminated in the election of their ally Dwight Eisenhower in 1952. The new president revolutionized the role of religion in American politics. He inaugurated new traditions like the National Prayer Breakfast, as Congress added the phrase "under God" to the Pledge of Allegiance and made "In God We Trust" the country's first official motto. Church membership soon soared to an all-time high of 69 percent. Americans across the religious and political spectrum agreed that their country was "one nation under God." Provocative and authoritative, One Nation Under God reveals how an unholy alliance of money, religion, and politics created a false origin story that continues to define and divide American politics to this day.
