away from the core policies and values upon which the country had been built. A nation of "makers" transformed itself into a nation of "takers." Crowley argues that the time has come for the pendulum to swing back - back to a time when Canadians were less willing to rely on the state for support; when people went where the work was rather than waiting for the work to come to them. Thought-provoking, meticulously detailed and ultimately polarizing, *Fearful Symmetry* is required reading for anyone who is interested in where this country began, where it's been, and where it's going.

Canadians have come to embrace their country as a "postmodern state"--a nation that downplays its history and makes few demands on its citizens, allowing them to find their allegiances where they may--in their region, their ethnic heritage or the language they speak. The notion of a Canadian national identity, with shared responsibilities and a common purpose, is considered out of date, even a disadvantage in a borderless world of transnational economies, resurgent regions and global immigration. In his timely and provocative book *Who We Are*, Rudyard

Griffiths argues that this vision of Canada is an intellectual and practical dead end. Without a strong national identity, and robust Canadian civic values and engagement, the country will be hard pressed to meet the daunting challenges that lie ahead: the social costs of an aging population, the unavoidable effects of global warming and the fallout of a dysfunctional immigration system. What's needed is a rediscovery of the founding principles that made Canada the nation it is today, core values that can form a civic creed for our own times. In a passionate call to revitalize our shared

A century later, the Professional Institute of the Public Service Canada (PIPSC) is a bargaining agent representing close to 60,000 public sector workers, whose collective efforts for the public good have touched the lives of every Canadian. Published on the centennial of PIPSC's founding, *Leading Progress* is the definitive account of its evolution from then to now—and a rare glimpse into an understudied corner of North American labour history. Researcher Dr. Jason Russell draws on a rich collection of sources, including archival material and oral history interviews

After decades of demographic and generational shifts, economic booms and busts, and political sea change, PIPSC looks toward its next hundred years with its mission as strong as ever: to advocate for social and economic justice that benefits all Canadians.
