The longtime CEO of Apple, Inc., which he co-founded in 1976, Steve Jobs stepped down from that role in August 2011, bringing an end to one of the greatest, most transformative business careers in history. Over the years, Jobs has given countless interviews to the media, explaining what he calls 'the vision thing' — his unmatched ability to envision, and successfully bring to the marketplace, consumer products that people find simply irresistible. Drawn from more than three decades of media coverage — print, electronic, and online — this book serves up

American, Canadian, and British troops penetrated German defenses by air and by sea in an ingenious surprise attack that marked a critical turning point in World War II. The complex logistics of D-Day — landing troops and tanks on the beaches of Normandy while German leaders expected an attack further up the coast — were made possible by a brilliant campaign of disinformation and misdirection. Without this counter-intelligence the Allies most likely would have crossed the Channel to meet the German Wehrmacht in all its might. That the Germans never knew what hit them says much for the spider's web of deceit carefully planted by the English. In his final work, bestselling author Larry Collins reveals the secrets of D-Day in a step-by-step unraveling of code names, unlikely connections, serendipitous discoveries, and cold-
