Hofman, a researcher with the Chile-based Economic Commission for Latin America and the Caribbean, uses growth accounting methods and previously unavailable long-term series data to assess the economic performance of the region during the century from a comparative and historical perspective. In particular he compares Latin American economies to those of advanced capitalist economies, to newly industrialized economies, and to Spain and Portugal because of the historical ties. He looks at the reasons for the poor or negative growth during the 1980s and the apparent recovery in the 1990s and at such problems as debt, income inequality, high inflation, cyclical instability, and political and policy instability. An eye-opening exploration of how social statuses intersect to shape our identities and produce inequalities. In this fully edited and streamlined *Race, Gender, Sexuality, and Social Class: Dimensions of Inequality and Identity*, Second Edition, Susan Ferguson has carefully selected readings that open readers' eyes to the ways that social statuses shape our experiences and impact our life chances. The anthology represents many of the leading voices in the field and reflects the many approaches used by scholars and researchers to understand this important

and evolving subject. The anthology is organized around broad topics (Identity, Power and Privilege, Social Institutions, etc.), rather than categories of difference (Race, Gender, Class, Sexuality) to underscore this fundamental insight: race, class, gender, and sexuality do not exist in isolation; they often intersect with one another to produce social inequalities and form the bases of our identities in society. Nine readings are new to this edition: Michael Polgar—on Jewish assimilation and culture in the U.S. Katherine Franke—on the 1940 Supreme Court case, *Suneri v. Cassagne*, concerning racial identity Carla Pfeffer—on transgender identity Michelle Alexander—on the New Jim Crow Richard Lachmann—on the decline of the U.S. as an economic and political power Abby Ferber—on privilege and “oppression blindness” Amada Hess—Why Women Aren’t Welcome on the Internet Iris Marion Young—Five Faces of Oppression Ellis Cose—Rage of the Privileged “The choice of readings in *Race, Gender, Sexuality, and Social Class: Dimensions of Inequality and Identity* is better than my current text in terms of inequality and steps of closing the gaps.” – Dr. Deden Rukmana, Savannah State University “I really like how *Race, Gender, Sexuality, and Social Class: Dimensions of Inequality and Identity* deals with underlying concepts rather than difference by x, y, or z.” – Ana Villalobos, Brandeis University

data exercises, and graphical and analytic methods for modeling and diagnosing modeling errors. These methods are critical because financial engineers now have access to enormous quantities of data. To make use of this data, the powerful methods in this book for working with quantitative information, particularly about volatility and risks, are essential. Strengths of this fully-revised edition include major additions to the R code and the advanced topics covered. Individual chapters cover, among other topics, multivariate distributions, copulas, Bayesian computations, risk management, and cointegration. Suggested prerequisites are basic knowledge of statistics and probability, matrices and linear algebra, and calculus. There is an appendix on probability, statistics and linear algebra. Practicing financial engineers will also find this book of interest.

In response to the coronavirus disease 2019 (COVID-19) pandemic and the societal disruption it has brought, national governments and the international community have invested billions of dollars and immense amounts of human resources to develop a safe and effective vaccine in an unprecedented time frame. In the United States and worldwide, the pandemic is having a disproportionate impact on people who are already disadvantaged by virtue of their race and ethnicity, age, health status, residence, occupation, socioeconomic condition, or other contributing factors. Framework for Equitable Allocation of COVID-19 Vaccine offers an overarching framework for vaccine allocation to assist policy makers in the domestic and global health communities. Built on widely accepted foundational principles and recognizing the distinctive characteristics of COVID-19, this report's recommendations address the commitments needed to implement equitable allocation policies for COVID-19 vaccine.

"To become good writers, students must learn more than a writing process: they must develop a writer's mindset—the rhetorical skills to read critically, analyze and synthesize sources, and write with their audiences in mind. How can we help students with the challenges involved in thinking like a writer? By using incremental steps that move from literal thinking to analytical and critical understanding, *The Writer's Mindset* makes the development of college-level writing capabilities possible for all students, whatever their level of preparedness. Students are guided to use rhetorical thinking, and in so doing, their ability to emulate the strategies of successful writers develops, and their capacity to use intentional, audience-based strategies in their own writing increases. *The Writer's Mindset* provides students with tools to transform the

Rhetorical Focus All successful writing—from an informative report to an argument—depends on the writer's audience awareness and rhetorical skill. The Writer's Mindset helps students understand and develop the rhetorical thinking needed for any writing purpose. Incremental Approach The Writer's Mindset breaks down the thinking required to be an effective writer and offers students methods to develop a writer's mindset in incremental steps. Embedded Support The Writer's Mindset helps even struggling students develop high-level reading, writing, and arguing skills by offering extra help for the more difficult topics and tasks. Student Appeal The Writer's Mindset meets students' needs for relevancy and value. The approachable tone, high-interest readings, and reflective writing prompts help students make personal connections with the content. The breadth of coverage allows the text to be used in both semesters of composition, making it a great value. Instructor Support The Writer's Mindset offers extensive instructor support created by the author, a writing professor with over thirty years' experience, including an annotated instructor's edition; topical PowerPoints; teaching plans for face-to-face courses, online courses, and co-requisite courses; chapter tests; a pre-created Connect course; and much more.
