Ch. 27 - "The New Imperialism". 1. (1869-1914) Chapter 27. 2. Intro Between 1860-1914, Western expansion and colonialism spread throughout the rest of the world as Great Britain, Spain, Holland, France, Germany, Russia and the U.S. all competed for markets and raw materials for their expanding economies. The industrialization of the late 19th century increased the power of Europeans and North Americans over nature and over the peoples of other continents. By the end of the 19th century, ...

explainplanned obsolescence. Then tell how Dr. Jonas

Concepts shape how we understand and participate in international legal affairs. They are an important site for order, struggle and change. This comprehensive and authoritative volume introduces a large number of concepts that have shaped, at various points in history, international legal practice and thought; intimates at how the many projects of international law have grappled with, and influenced, the world through certain concepts; and introduces new concepts into the discipline.

A milestone in the understanding of British history and imperialism, this ground-breaking book radically reinterprets the course of modern economic development and the causes of overseas expansion during the past three centuries. Employing their concept of 'gentlemanly capitalism', the authors draw imperial and domestic British history together to show how the shape of the nation and its economy depended on international and imperial ties, and how these ties were undone to produce the post-colonial world of today. Containing a significantly expanded and updated Foreword and Afterword, this third edition assesses the development of the debate since the book's original publication, discusses the imperial era in the context of the controversy over globalization, and shows how the study of the age of empires remains relevant to understanding the post-colonial world. Covering the full extent of the British empire from China to South America and taking a broad chronological view from the seventeenth century to post-imperial Britain today, *British Imperialism: 1688 – 2015* is the perfect read for all students of imperial and global history.

This collection of essays is designed to shed light on the issues of imperialism and the transitions to socialism. Delving into the theoretical aspects, whose analysis is key for understanding the subject under consideration, and practical experiences of socialist transition in China, Vietnam, North Korea, Cuba, Venezuela, Ecuador, and Brazil.

The bestselling author of *Overthrow* and *The Brothers* brings to life the forgotten political debate that set America's interventionist course in the world for the twentieth century and beyond. How should the United States act in the world? Americans cannot decide. Sometimes we burn with righteous anger, launching foreign wars and deposing governments. Then we retreat—until the cycle begins again. No matter how often we debate this question, none of what we say is original. Every argument is a pale shadow of the first and greatest debate, which erupted more than a century ago. Its themes resurface every time Americans argue whether to intervene in a foreign country. Revealing a piece of forgotten history, Stephen Kinzer transports us to the dawn of the twentieth century, when the United States first found itself with the chance to dominate faraway lands. That prospect thrilled some Americans. It horrified others. Their debate gripped the nation. The country's best-known political and intellectual leaders took sides. Theodore Roosevelt, Henry Cabot Lodge, and William Randolph Hearst pushed for imperial expansion; Mark Twain, Booker T. Washington, and Andrew Carnegie preached restraint. Only once before—in the period when the United States was founded—have so many brilliant Americans so eloquently debated a question so fraught with meaning for all humanity. All Americans, regardless of political perspective, can take inspiration from the titans who faced off in this epic confrontation. Their words are amazingly current. Every argument over America's role in the world grows from this one. It all starts here.
