"Chickenhawk ranks with the very best of the personal narratives to come out of Veitnam. It was a 'helicopter war', but until now, no one has told the story of these machines and the men that flew them. Mason more than makes up for the long wait. An absolutely superb piece of writing!" —Tom Herbert, Vietnam War Newsletter

The aeroscouts of the 1st Infantry Division had three words emblazoned on their unit patch: Low Level Hell. It was then and continues today as the perfect concise definition of what these intrepid aviators experienced as they ranged the skies of Vietnam from the Cambodian border to the Iron Triangle. The Outcasts, as they were known, flew low and slow, aerial eyes of the division in search of the enemy. Too often for longevity ' s sake they found the Viet Cong and the fight was on. These young pilots (19-22 years old) " invented " the book as they went along. Praise for Low Level Hell " An absolutely splendid and engrossing book. The most compelling part is the accounts of his many air-to-ground engagements. There were moments when I literally held my breath. " —Dr. Charles H. Curreton, Chief Historian, U.S. Army Training and Doctrine (TRADOC) Command " Low Level Hell is the best ' bird ' s eye view ' of the helicopter war in Vietnam in print today. No volume better describes the feelings from the cockpit. Mills has captured the realities of a select group of aviators who shot craps with death on every mission. " —R.S. Maxham, Director, U.S. Army Aviation Museum

Gone to the Dawgs is a collection of true short stories of criminal incidents involving a unique police officer - a working dog from a K-9 detail. The author spent nearly twenty years in the K-9 Detail, and shares here some of his more amusing stories from his time as a police officer, with his four-legged partner, a dog trained to be a manhunter from the K-9 detail. The stories range from the serious, where there are major crimes committed and injuries incurred, to the ridiculous, where criminals act in such odd ways, it defies explanation. The author shares these stories not only to entertain the reader, but to also highlight the difficult and varied work of police officers, both human and canine! This book highlights a sometimes dangerous and necessary job within a police department. The stories contained in this book demonstrate the unique way police dogs have been incorporated into the police force in a helpful way, that is rewarding to both canine and his human partner. The police dogs are highly trained to sniff out the bad guys who always think they can elude being found by the police during this high stakes game of hide and seek, but learn very quickly that no matter where they hide the dogs will usually find them. In the end their failed attempt to freedom will be short lived and they will go to jail feeling defeated from a worthy adversary. Working in the K-9 detail is one of the best kept secrets in any police department and also one of the most rewarding jobs a police officer could ever have. The fact is you are getting paid to pet a dog while playing the adult version of hide and seek. Bad guys these days do not respect police officers as they did years ago, but they damn sure respect and fear the dog!

Through the Valley is the memoir of an American prisoner of war in Vietnam. It is the true story of courage, hope, and survival. The author faced combat in some of the biggest battles of the Vietnam War. After being shot down and captured, he mustered the will to survive an ordeal in jungle cages, a forced death march of several hundred miles, and months of anguish in the notorious prisons of Hanoi. His tenacity in the face of unimaginable hardship is not only a captivating story, but serves as an inspiration to us all. This is an account with lessons for those in service who continue to face the demands of combat. It is also a human story that appeals to a broad general readership across the United States and around the world, much as have other POW stories such as Undeclared and The Railway Man. William Reeder ' s story is different than most published POW accounts. Unlike the majority of U.S. Air Force, Navy, and Marine pilots who were shot down and captured inside North Vietnam then moved quickly into established prison camps, Reeder was captured inside South Vietnam and held in jungle cages in Cambodia before enduring a grueling forced march of several hundred miles. That march took the lives of seven out of his small group of 27 POWs. He was the last U.S. Army prisoner taken in the war to have survived his captivity. The memoir begins with Reeder ' s return to Vietnam on his second tour of duty. It carries through his missions as a Cobra attack helicopter pilot during the rapidly deteriorating military situation in early 1972. His writing puts the reader right in the cockpit in the churning cauldron of war. Reeder cuts to the fear and anxiety, the thrill and the horror of combat, friendships made and friends lost. The story continues through his shoot down, capture, and struggle to survive a long and arduous march up the Ho Chi Minh Trail. Reeder shares the torment and pain of his ordeal, but always in the light of the hope that he never lost. More than anything, this is a story of hope and renewal. His memoir reinforces the themes of courage and sacrifice, belief in self, undying faith, strength of family, love of country, loyalty among comrades, and how precious is this thing called freedom that we so often take for granted.
