A civics program building the next generation of active Americans Civics Today: Citizenship, Economics, and You meets the content standards for civics and government as outlined by the National Standards for Civics and Government. Many young citizens are completing their education with little or no sense of civic responsibility. This program teaches the knowledge and skills needed to be an effective, active citizen. It also encourages an appreciation for the American political system and fosters a willingness to take part in American democracy. Two economics units provide an understanding of the interrelationship between democracy and the free enterprise system.

This book taps the best American thinkers to answer the essential American question: How do we sustain our experiment in government of, by, and for the people? To remain America, our country has to give its kids a civic identity, an understanding of our constitutional system, and some appreciation of the amazing achievement of American self-government. Yet schools often do no such thing. Young Americans know little about the founding fathers, the Bill of Rights, the structure of government, or the civilrights movement. Three of every four high-school seniors aren't proficient in civics, and the problem is aggravated by universities' disregard for civic education. This undermines healthy citizenship. It disenfranchises would-be voters-especially the poorand minorities-it weakens America's common culture, and it poisons political discourse. That is the subject of this book, authored by an extraordinary and politically diverse roster of public officials, scholars, and educators. In these pages, they describe our nation's civic education problem, assess its causes, offer an agenda for reform, and explain the high stakes at risk if we fail.

This high-impact program offers students a strong introduction to government, citizenship, and the American economic and legal systems. An accessible narrative and compelling design work hand-in-

hand with interactive technology, study guides, and activity-based resources to motivate students to actively participate in government. Expanded economics coverage, research-based reading instruction, and new chapter assessment tools ensure content mastery for all students. Custom book written especially for Virginia Test preparation and AYP monitoring resources to get students ready for the SOLs Focus on 21st Century Skills to help your students prepare for success today and tomorrow Activities and resources, like the Citizenship Activity Pack, designed to help students become engaged 21st Century citizens

This book empowers teachers to support student activists. The authors examine arguments for promoting student activism, explore state and national curriculum standards, suggest activist projects, and report examples of student individual and group activism. By offering suggestions for engaging students as activists across the K-12 curriculum and by including the stories of student activists who became lifetime activists, the book demonstrates how activism can serve to bolster democracy and be a component of rich, experiential learning. Including interviews with student and teacher activists, this volume highlights issues such as racial and immigrant justice, anti-gun violence, and climate change.

Maximize learning and minimize preparation time with lesson plans, activities, and assessment support based on the research of Jay McTighe, co-author of *Understanding by Design*.

"American Politics and Government Today teaches students exactly what they need to know to succeed in the course and become informed citizens. The part structure and chapter organization clearly maps to the five AP® U.S. Government and Politics units, for close alignment with the course framework. In each chapter, integrated policy coverage allows students to see how social, economic, or foreign policy relates to real-life situations, while AP®-style multiple-choice questions and the full range of free response questions offer students practice opportunities at the end of each chapter"--

Reinforce critical concepts from the text and help students improve their reading-for-information skills with this essential resource, written 2-3 grade levels below the Student Edition
