“ Codex Seraphinianus is an art book in the most direct sense—there are big, beautiful drawings accompanied by indecipherable letterforms--and it is impossible to “ read ” in a literal way. The text has remained a mystery all these years, and perhaps that ’ s part of its draw as an art object. ”

for the information age and addressing the import of coding and decoding in genetics, literary criticism, and computer science, the Codex confused, fascinated, and enchanted a generation. While its message may be unclear, its appeal is obvious: it is a most exquisite artifact. Blurring the distinction between art book and art object, this anniversary edition-redesigned by the author and featuring new illustrations-presents this unique work in a new, unparalleled light. With the advent of new media and forms of communication and continuous streams of information, the Codex is now more relevant and timely than ever.

Bookmark File PDF Codex Seraphinianus

Seraphiniana contains over one hundred extraordinary graphite illustrations with scarlet accents, some of which are depicted in comic-strip style. Conceived as a musical Suite, it is divided into nine scenes with an intermission. It features the oddly surreal and globally recognized character, whose origins have been lost in the mists of the time. An ancestor of Pulcinella was certainly Maccus, the protagonist of the Atellanae Fabulae, very popular farces in ancient Rome, but it was in the early seventeenth-century that the character assumed the name and costume that we all know. Distinguished by a long nose and typically dressed in white with a black mask, Pulcinella is often depicted in various kinds of misadventures and singing about love, hunger, and money. As he famously did in the Codex, Luigi Serafini, has created Pulcinellopaedia Seraphiniana in a unique language all its own, and has filled it with fascinating and mysterious illustrations that

Bookmark File PDF Codex Seraphinianus

will no doubt prompt devotees to obsessively try to decipher the artist's intention. Written by Serafini's imaginative coauthor and alter ego "P. Cetrulo," who represents Pulcinella himself, the book artfully presents the struggles of a rebellious antihero who must come to grips with the challenges of everyday life. Originally, a book about Pulcinella and his world appeared in 1984, after Serafini's involvement with the 1982 Carnival of Venice, the first revival of the famous festivity after two centuries of silence. Now more than three decades later, this new edition has been extensively revised and includes a new afterword by the author. Like its predecessor, the original edition became immensely sought after and highly valuable, fetching more than one thousand dollars if book collectors were lucky enough to get their hands on a copy. All fans of Serafini's work will treasure this volume. Rizzoli will also publish a deluxe limited edition with a signed and numbered print.

This “ brilliant collection of essays ” and travelogues by the celebrated author of *Invisible Cities* “ may change the way you see the world around you ” (The Guardian, UK). Italo Calvino ’ s boundless curiosity and ingenious imagination are displayed in peak form in *Collection of Sand*, his last collection of new works published during his lifetime. Delving into the delights of the visual world—both in art and travel—the subjects of these 38 essays range from cuneiform and antique maps to Mexican temples and Japanese gardens. In Calvino ’ s words, this collection is “ a diary of travels, of course, but also of feelings, states of mind, moods... The fascination of a collection lies just as much in what it reveals as in what it conceals of the secret urge that

led to its creation ” (from Collection of Sand). Never before translated into English, Collection of Sand is an incisive and often surprising meditation on observation and knowledge, “ beautifully translated by Martin McLaughlin ” (The Guardian, UK).

Features unpublished goblin illustrations by legendary illustrator and concept artist Brian Froud and an exclusive peek into Jim Henson ’ s creative process with 50 never-before-seen pages from his personal journal, detailing the initial conception of his ideas for LABYRINTH.

The first critical study of writing without language In recent years, asemic writing—writing without language—has exploded in popularity, with anthologies, a large-scale art exhibition, and flourishing interest on sites like tumblr, YouTube, Pinterest, and

Bookmark File PDF Codex Seraphinianus

Instagram. Yet this burgeoning, fascinating field has never received a dedicated critical study. Asemic fills that gap, proposing new ways of rethinking the nature of writing. Pioneered in the work of creators such as Henri Michaux, Roland Barthes, and Cy Twombly, asemic writing consolidated as a movement in the 1990s. Author Peter Schwenger first covers these “ asemic ancestors ” before moving to current practitioners such as Michael Jacobson, Rosaire Appel, and Christopher Skinner, exploring how asemic writing has evolved and gained importance in the contemporary era. Asemic includes intriguing revelations about the relation of asemic writing to Chinese characters, the possibility of asemic writing in nature, and explanations of how we can read without language. Written in a lively style, this book will engage scholars of contemporary art and literary theory, as well as anyone interested in what writing was and what it is now in the
