Not a rah-rah or get-rich-quick book, this book is for someone who is prepared to think about what he or she wants to accomplish. James Randel provides the how and why. James Randel has been a successful investor and educator for 25 years. He teaches investing through stories and anecdotes - bringing to the limelight not just his successes (and there are some amazing stories of these) but also his mistakes. His candor is instructive and entertaining. It is said that "those who can, do, and those who can't, teach." James Randel is a rare exception as he is both a highly successful investor as well as an excellent teacher. As said by Jeff Dunne, Vice Chairman

of the largest real estate company in the world, CB Richard Ellis: "I've tracked Jimmy's incredible run of successful real estate investments for 20 years and more recently invested very profitably with him. His new book is a must read for anyone interested in real estate investing." If you are tired of the "same old, same old" and prepared to play in the big leagues, this book is calling your name.

Poorvu includes a variety of real world stories about people and their career experiences to make for an interesting read with a practical edge." Publishers Weekly "This new book by Bill Poorvu trumps any real estate book you've ever read." James Grant, editor of Grant's Interest Rate Observer There are plenty of "get rich quick in real estate" books. This is not one of them. Your guide, William Poorvu, is a lifelong real estate investor and consultant, and former head of the real estate program at Harvard Business School. Drawing on his personal experience and hundreds of interviews with many of the most successful real estate investors and entrepreneurs, Poorvu illuminates every stage of your "life" in real estate: creating wealth, growing it, and managing it successfully. He reveals the milestones, pitfalls, and rewards associated with real estate investing, offering powerful insight into the challenges and opportunities you'll face as you start out...scale up...ride the industry's cyclical waves and then leverage, share, or pass along the wealth you've created. This book contains dozens of real life personal stories, hands-on checklists, and questions to guide your decisions...and it delivers unparalleled insight into how the real estate industry really works: " Be strategic: choose your best route into the business Define your successful real estate career, and learn how to make it a reality "Build your foundation: your first job, your first deal Spot a great opportunity to add value, and jump on it " Scale up: build and sustain your success Hire a great team, manage them successfully, and find the capital you need to grow " Survive the downturns: be flexible and nimble Recognize new realities, adapt to them, and uncover the opportunities they create " Take stock: make the most of your success Balance your business, wealth, and family

From drumsticks at an early age, to chalkboards after college, and then to pens that inked profitable real estate deals, Jim Baker has successfully wielded them all. The winding road of his experience is marked by highs and lows, especially with the times of tremendous personal and professional challenges and growth. These landmarks are chronicled in Jim's book, Confessions of a Commercial Real Estate Broker. Jim is an accomplished musician who began his career performing professionally, and later taught and directed high school music. A heart-breaking experience on the job, as well as family crises and losses, brought Jim face-to-face with the realization that he needed to follow his heart and change careers. His journey led him eventually to his current award-winning position in commercial real estate. Bathed in honesty and written to prepare others for the field of his passion - commercial real estate, Jim shares his advice, expertise and humor, divided conveniently in entries for every day of the year. Each day opens with information that relates to commercial real estate, followed by a helpful "Lessons Learned" section. The closing piece of each entry, "On This Date," reflects the author's extensive research with names of people, events, and highlights associated with the date. These may be familiar, even nostalgic to the reader, and surely informative. His nuggets of wisdom will certainly give you conversation starters around the table with your family or at the office with business associates. Jim's purpose for his book is to prepare you for a career in commercial real estate, enhance your success and give you valuable points to ponder as you work with others.

Roy Brooks was an eminent estate agent who became a legend in his own time for the puckish delight he took in telling the truth, the whole truth - and even the unwholesome truth - about properties that he advertised for sale. In a trade well known for its euphemisms, optimistic cliches and skilful literary camouflage, he won the delighted applause of the property-buying and advertisement-reading public. He died in 1971, leaving behind him an extraordinary collection of advertisements. His honesty and impudent originality were, surprisingly perhaps, rarely offensive. He walked his editorial tightrope with a natural flair and disarming humour. He espoused causes, advocated charities and benefited both. He brought a nationwide following to the Sunday Times and the Observer and readers seemed no less attracted to his political and social homilies than to his scathing and acid descriptions of property. This is a selection of the best of the property ads that became essential weekend reading. Will anyone take pity on a nasty old house adj. Regent's Pk. This book contains the real estate investment histories of four highly successful individuals. Within this publication, the investors describe the paths they took that resulted in the creation of four separate, self-sustaining real estate empires. Self-sustaining means that the companies they started would continue to flourish without the day-to-day input of the founder. To fulfil such a qualification, the founder must have built a company consisting of a group of independent real estate entrepreneurs who are capable of managing and growing the business to the next level of success. The investors contributing to this book have achieved that goal.

When it comes to investing in commercial real estate, it's easy to make a mistake...so why risk it? Improve your chances of success with a book researched, lived, and written by a master of commercial real estate: Craig Coppola. Craig has navigated the markets, ridden economic ups and downs, and bought and sold countless commercial projects - and he's mastered the world of brokerage, leasing and investing. Readers will learn how to set their own commercial investment goals and create a plan to achieve them, see opportunities with new "real-estate eyes," perform due diligence on a property with minimal cost, use a proven step-by-step process for evaluating properties to weed out losers and showcase winners, and traverse the minefield of letters of intent and contracts.

Your opposition is trying to kill you. You don't want a fair fight. You want an unfair advantage. You learn how to twist brains and win negotiations against the biggest players in the world. These skills are not

fair, and they're not for the faint of heart. They're not meant to be. Kill or be killed. Follow the journey from bad boy to Fortune 500 Fixer and the Tricks, Hacks, Hammers, and Cheats to survive and thrive in a cutthroat world. There's a lot of polite books out there; this is not one of them. You might get offended, but you're going to learn a lot. It's simple; you have more fun when you're free and you live life at your own direction. Deals are more fun when you know how to win. It's about wielding power. It's about not being normal. It's about unpacking that raw, sovereign, power inside of you and setting it loose upon the world. This is not a book about love. This isn't for everyone. You need to be a little special, a breed apart, or maybe a little broken. Regardless, you need to be smarter than the rest. "I probably tell you more than I should." -- Steve Miller
