From level 80 and onwards, you will burn less than 1% of the sharks that you cook if you use the Hosidius kitchen and cooking gauntlets. Players may wish to wait for level 94 (with cooking gauntlets) before starting to cook sharks, in order not to burn any. At level 91, players will only burn about 3-5%;

The purpose of the Beer/McMurrey book is to give engineering students and engineers a brief, easy to use guide to the essentials of engineering writing. Appropriate for use as a supplement to an existing course, or as a resource for an introduction to engineering course that includes writing as one of its components, the Beer/McMurrey book will give engineers the basics of writing reports, specifications, using electronic mail and computers without trying to be an exhaustive survey of all kinds of technical writing.

Take Action Today and live Mortgage-Free for the Rest Of Your Life By Designing, Building and Living In The Tiny House Of Your Dreams! The Tiny House Movement has gone a long way from being a quirky housing trend into an actual way of life for people who are ready to down size their lives for practical reasons. Students who are burdened by student loans but prefer to lead independent lives as they enter the workforce find the option to build a tiny house as their starter house. Entrepreneurs who want to take control of their life by starting their own business find downsizing to tiny house living as the most practical approach to managing finances as they start a business. Older folks who are at the cusp of retirement age have been known to sell off their property, the house they built their life and family in, to wind down and settle into old age in a much more manageable space which a tiny house is able to provide. There are a lot more people out there with equally valid reasons for downsizing to tiny house living. This is the reason why the Tiny House Movement has gained in momentum through the years, taking on more advocates of this very practical, downsized and streamlined lifestyle. If you are considering about building and living in your own tiny house this book will give you a good beginners guide for you to take action towards building the tiny house of your dreams! Here is a Preview of the points covered in this book:-

- Weighing the Pros and Cons of Tiny house living and taking the leap
- Tiny House Planning
- Tiny House Blueprints and Floor Plans
- The Construction Materials you will need
- Tiny House Furniture and Appliances
- Tiny House Design Ideas for your bedroom,bathroom and kitchen
- 10 Tips To Decorate Your Tiny House On A Budget And much more!

John C. Payne is a professional marine electrical engineer with 23 years merchant marine and off-shore oil experience.

The microwave has many advantages over conventional cooking: it's quicker, more economical, cleaner and easier. Microwave ovens take up very little space. They produce fewer cooking smells and less steam, and kitchen/cooking areas remain cool. Annette Yates' book is designed specifically for the person who lives alone, or who has to prepare individual meals for some other reason: perhaps members of the family need to eat at different times or have conflicting tastes and preferences, or perhaps someone is on a special diet which requires food to be cooked separately. Included are recipes for: breakfasts; soups, starters and sauces; fish, meat, poultry, vegetable, cheese, egg and pasta dishes; and desserts - PLUS an indispensable cooking guide which explains how to adapt family recipe instructions to the smaller amounts needed for a single portion.
