This manual, Child

Caseworkers,  
examines the roles  
and responsibilities of  
child protective  
services (CPS)  
workers, who are at  
the forefront of every  
community's child  
protection efforts. The  
manual describes the  
basic stages of the  
CPS process and the  
steps necessary to

an exciting and

start to finish. Each

step in the process,

from finding problems to finding solutions, is outlined in detail and includes

accompanying activities on reproducible pages. Designed for students in grades 2-8, these activities are challenging and interesting. Creative Problem Solving is a process that allows

people to apply both creative and critical thinking to find solutions to everyday problems. CPS can eliminate the tendency to approach problems in a haphazard manner and, consequently, prevents surprises and/or disappointment with the solution.

Students will learn to

The framework for  
teaching is a research-  
based set of  
components of  
instruction that are  
grounded in a  
constructivist view of  
learning and teaching.  
The framework may

be used for many purposes, but its full value is realized as the foundation for professional conversations among practitioners as they seek to enhance their skill in the complex task of teaching. The framework may be used as the foundation of a school's or district's

clearly identified and  
fall under four

domains of teaching  
responsibility:

Within the domains

and 76 descriptive elements that further refine our understanding of what teaching is all about.

The framework defines four levels of performance--Unsatisfactory, Basic, Proficient, and Distinguished--for each element, providing a valuable tool that all teachers
