From one of our finest historians comes an outstanding exploration of the British monarchy from the retreat of the Romans up until the modern day. This compendium volume of two earlier books is fully revised and updated.

The monarchy is one of Britain's longest surviving institutions - as well as one of its most tumultuous and revered. In this masterful book, David Starkey looks at the monarchy as a whole, charting its magnificent history from Roman times, to the Wars of the Roses, the chaos of the Civil War, the fall of Charles I and Cromwell's emergence as Lord Protector - all the way up until the Victorian era when it came face-to-face with modernity. More than a collection of biographies of Britain's kings and queens, this is an in-depth examination of what the British monarchy has meant, what it means now and what it will continue to mean.

Read PDF Crown And Country A History Of England Through The Monarchy David Starkey

Bringing to life a cast of colourful characters, Starkey's trademark energy and authority make him the perfect guide on this epic, accessible and compelling journey, as he offers us a vivid portrait of British culture, politics and nationhood.

In this text, HRH Prince Edward takes the reader on a journey through the history of London's royal connections and explains the architectural heritage of some of the world's most cherished royal landmarks.

Charts the rise the history of the British monarchy from the War of the Roses, The English Civil War, and the Georgians right up until the monarchs in the 20th Century. This work includes biographies of kings and queens and presents a reappraisal of English nationhood, culture and politics, shown through the central institution in English life.

In 1688, a vast fleet of 463 ships, twice the size of the Spanish Armada, put to sea from Holland. On board was William of Orange with 40,000 soldiers their objective, England. The Protestant William had been encouraged by a group of Church of England bishops to risk everything and oust the Catholic King James. He landed at Tor Bay in Devon and soon gathered enough support, including that of John Churchill, the future Duke of Marlborough, to cause King James to flee to France. It had been seen, in the eyes of most in England and Scotland as a Glorious Revolution. William ascended the throne along with his wife Mary, the daughter of England's Charles II, who had preceded James. Though the revolution had been virtually bloodless, William had to fight to keep his crown. Most Irish were Catholics and King William's armies met stiff opposition there. In this, James saw a chance to regain his crown. Sailing to Ireland, he led his Jacobite troops against William at the Battle of the Boyne on 1 July 1690. James was defeated, ending his hopes of ousting William. There were also large numbers of Catholics in Scotland, but they too were defeated by William's army at the Battle of Killiecrankie. This, in turn, led to the infamous Massacre of Glencoe. The accession of William and Mary to the throne was a landmark moment in British history, one which saw Parliament emerge into the modern state. In January 1689, two months after the Glorious Revolution, Parliament met and in February a Declaration of Rights was incorporated into the Bill of Rights. This included the measure that the crown could not tax without Parliament's consent or interfere in elections. William, therefore, is not only known both for being one of England's most revolutionary kings, but also one of the least remembered.

This small book is on the impending and unprecedented worldwide glorious Golden Age of Peace that is about to break upon the whole world (and on how you can help make it arrive quickly). Authored by Daniel O'Connor, professor of Philosophy and Religion and a Doctoral student.

The official book to the Golden Globe and BAFTA award-winning Netflix drama, *The Crown*, with extensive research, additional material and beautifully reproduced photographs. 'The things which I have here before promised, I will perform and keep. So help me God.' Elizabeth Mountbatten never expected her father to die so suddenly, so young, leaving her with a throne to fill and a global institution to govern. Crowned at 25, she was already a wife and mother. Follow the journey of a woman learning to become a queen. As Britain lifted itself out of the shadow of war, the new monarch faced her own challenges. Her mother doubted her marriage; her uncle-in-exile derided her abilities; her husband resented the sacrifice of his career and family name; while her rebellious sister embarked on a love affair that threatened the centuries-old links between the Church and the Crown. This is the story of how Elizabeth II drew on every ounce of resolve to ensure that the Crown always came out on top. Netflix's original series *The Crown* dramatised Peter Morgan's powerful portrayal of Britain's longest-reigning monarch. Written by royal biographer Robert Lacey, *The Crown: The Inside History* adds expert and in-depth detail to the events of the series, painting an intimate portrait of life inside Buckingham Palace and 10 Downing Street. Here is Elizabeth II as we've never seen her before.

Read PDF Crown And Country A History Of England Through The Monarchy David Starkey

The author of *The Private Lives of the Tudors* illuminates the almost thousand-year history of the British monarchy. Since William the Conqueror, duke of Normandy, crossed the English Channel in 1066 to defeat King Harold II and unite England's various kingdoms, forty-one kings and queens have sat on Britain's throne. "Shining examples of royal power and majesty alongside a rogue's gallery of weak, lazy, or evil monarchs," as Tracy Borman describes them in her sparkling chronicle, *Crown & Sceptre*. Ironically, during very few of these 955 years has the throne's occupant been unambiguously English—whether Norman French, the Welsh-born Tudors, the Scottish Stuarts, and the Hanoverians and their German successors to the present day. Acknowledging the intrinsic fascination with British royalty, Borman lifts the veil to reveal the remarkable characters and personalities who have ruled and, since the Restoration of the monarchy in 1660, more ceremonially reigned. It is a crucial distinction explaining the staying power of the monarchy as the royal family has evolved and adapted to the needs and opinions of its people, avoiding the storms of rebellion that brought many of Europe's royals to an abrupt end. Richard II; Henry VIII; Elizabeth I; George III; Victoria; Elizabeth II: their names evoke eras and the dramatic events Borman recounts. She is equally attuned to the fabric of monarchy: royal palaces; the way monarchs have been portrayed in art, on coins, in the media; the ceremony and pageantry surrounding the crown. Elizabeth II is already one of the longest reigning monarchs in history. *Crown & Sceptre* is a fitting tribute to her remarkable longevity and that of the magnificent institution she represents.

By concentrating on the early years from Elizabeth's birth in 1533 to her accession in 1558, this book shows how her experiences of danger and adventure formed her remarkable character and shaped her opinions and beliefs. --from publisher description.
