Zimbabwe's Cultural Heritage won first prize in the Zimbabwe Book Publishers Association Awards in 2006 for Non-fiction: Humanities and Social Sciences. It is a collection of pieces of the culture of the Ndebele, Shona, Tonga, Kalanga, Nambiya, Xhosa and Venda. The book gives the reader an insight into the world view of different peoples, through descriptions of their history and life events such as pregnancy, marriage and death. "...the most enduring book ever on Zimbabwean history. This book will help people change their attitude towards each other in Zimbabwe." - Zimbabwe Book Publishers Association Awards citation

"This study examines the historical development, social, political and economic significance of gospel music in Zimbabwe. It approaches music with Christian theological ideas and popular appeal as a cultural phenomenon with manifold implications. Applying a history of religious approach to the study of a widespread religious phenomenon, the study seeks to link religious studies with popular culture. It argues that gospel music represents a valuable entry point into a discussion of contemporary African cultural production. Gospel music successfully blends the musical traditions of Zimbabwe, influences from other African countries, and music styles from other parts of the world."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. At a turbulent historical moment, Versions of Zimbabwe: New Approaches to Literature and Culture considers the relationships between Zimbabwe ' s creative literature, history and politics. It presumes that literature and culture cannot be understood separately from larger social trends; and that besides being legitimate subjects of study in themselves, through foregrounding literary and cultural issues, insights into the present crisis inflicting the country can be achieved. The book is the result of a collaboration of scholars from southern Africa and overseas, whose work emphasises hitherto overshadowed subjects of literature, exposing new and untried approaches to Zimbabwean writing. The contributors focus on pluralities, inclusiveness and the breaking of boundaries, and elucidate how literary texts are betraying multiple versions and opinions of Zimbabwe, arguing that only a multiplicity of opinions on Zimbabwe can do the complexity of the society and history justice. Individual chapters consider the works of celebrated Zimbabwean authors such as Dambudzo Marechera, Alexandra Fuller and the late Yvonne Vera, alongside several Zimbabwean writers less well- known outside the country. Works of literature in the three major literary languages of Zimbabwe -- Shona, Ndebele and English -- are examined, alongside autobiography, history and memoir, questions of race in literature and racial identities of Zimbabwean writers, and the oft-neglected, arguably underrated Zimbabwean poetry. The contributors include Annie Gaglano, Caroline Rooney, Tommy Mathakayile-Ndlovu and Terence Ranger.

Offering a unique and original perspective on the rise and fall of indigenous states of southern Zambezia, The Zimbabwe Culture analyzes the long contentious history of the remains of the remarkable cyclopean masonry, ranging from mighty capitals of traditional kings to humble farmsteads. Forming a cornerstone of the geographical lore of Africa in the seventeenth and eighteenth centuries, debate on the origins, development, and collapse of the Zimbabwe culture has never ceased, and with increasing archaeological research over the twentieth century, has become more complex. Thoroughly examining the growth and decline of pre-colonial states on the entire Zimbabwean Plateau and southern Zambezia, Dr. Pikirayi has contributed tremendously towards the archaeological understanding of this extraordinary culture. The Zimbabwe Culture is essential reading for all students and avocationalists of African archaeology, history, and culture.

"These volumes offer a one-stop resource for researching the lives, customs, and cultures of Africa's nations and peoples. Unparalleled in its coverage of contemporary customs in all of Africa, this multivolume set is perfect for both high school and public library shelves. The three-volume encyclopedia will provide readers with an overview of contemporary customs and life in North Africa and sub-Saharan Africa through discussions of key concepts and topics that touch everyday life among the nations' peoples. While this encyclopedia places emphasis on the customs and cultural practices of each state, history, politics, and economics are also addressed. Because entries average 14,000 to 15,000 words each, contributors are able to expound more extensively on each country than in similar encyclopedic works with shorter entries. As a result, readers will gain a more complete understanding of what life is like in Africa's 54 nations and territories, and will be better able to draw cross-cultural comparisons based on their reading." -- Publisher's description

This book focuses on a forgotten place--the Khami World Heritage site in Zimbabwe. It examines how professionally ascribed values and conservation priorities affect the cultural landscape when there is a disjuncture between local community and national interests, and explores the epistemic violence that often accompanied colonial heritage management and archaeology in southern Africa. The central premise is that the history of the modern Zimbabwe nation, in terms of what is officially remembered and celebrated, inevitably determines how that past is managed. It is about how places are experienced and remembered through narratives and how the loss of this heritage memory may mark the un-inheriting of place. Memory and Cultural Landscape at the Khami World Heritage Site, Zimbabwe is informed by the author ' s experience of living near and working at Great Zimbabwe and Khami as an archaeologist, and uses archives and traditional narratives to build a biography for this lost cultural landscape. Whereas Great Zimbabwe is a resource for the state ' s contentious narrative of unity, and a tool for cultural activism among communities whose cultural rights are denied through the nationalisation and globalisation heritage, at Khami, which has lost its historical gravity, there is only silence. Researchers and students of cultural heritage will find this book a much-needed case study on heritage, identity, community and landscape from an African perspective.

This study presents a break with previous literary criticism that has vilified orality, in an effort to understand the interface between orality and the black Zimbabwean novel. It traces the ways in which the African oral story-telling tradition has survived within the black Zimbabwean novel in English. The author critically analyses the works of eight leading Zimbabwean creative writers, revealing how they have used oral story-telling traditions in their literature. He argues that throughout the colonisation, liberation and post- independence periods, African orature was and remains a mode of expressing resistance to authoritarian ideas and cultural dominance, and a social vision.
