DI Charlie Priest is the kind of officer who likes to get on with the job, though his unorthodox ways have held him at inspector level for a record-breaking length of time; however Priest does get results. The charismatic forger immortalized in Catch Me If You Can exposes the astonishing tactics of today ' s identity theft

criminals and offers powerful strategies to thwart them based on his second career as an acclaimed fraud-fighting consultant. When Frank Abagnale trains law enforcement officers around the country about identity theft, he asks officers for their names and addresses and nothing more. In a matter of hours he can obtain everything he would need to steal their lives: Social Security numbers, dates of birth, current salaries, checking account numbers, the names of everyone in their families, and more. This illustrates how easy it is for anyone from anywhere in the world to assume our identities and in a matter of hours devastate our lives in ways that can take years to recover from. Considering that a fresh victim is hit every four seconds, *Stealing Your Life* is the reference everyone needs by an unsurpassed authority on the latest identity theft schemes. Consider these sobering facts:

- Six out of ten American companies and government agencies have already been hacked.
- An estimated 80 percent of birth certificate requests are fulfilled through the mail for people using only a name and a return address.
- Americans write 39 billion checks a year, and half of them never reconcile their bank statements.
- A Social Security number costs \$49 on the black market. A driver ' s license goes for \$90. A birth certificate will set you back \$79.

Abagnale offers dozens of concrete steps to transform anyone from an easy mark into a hard case that criminals are likely to bypass:

- Don ' t allow your kids to use the computer on which you do online banking and store financial records (children are apt to download games and attachments that host damaging viruses or attract spyware).
- Beware of offers that appeal to greed or fear in exchange for personal data.
- Monitor your credit report regularly and know if anyone ' s been " knocking on your door. "
- Read privacy statements carefully and choose to opt out of sharing information whenever possible.

anecdotes of creative criminality that are as entertaining as they are enlightening, *Stealing Your Life* is the practical way to shield yourself from one of today ' s most nefarious and common crimes.

Value Added Tax (VAT) is a self assessed tax on the supply of goods and services, collected by 1.7 million registered traders and paid over to Customs. Traders may not pay the correct amount of VAT for a number of reasons including error, deliberately understating their VAT liabilities or through systematic attacks on the VAT system, with an estimated £11.9 billion lost in VAT in 2002-03, including substantial nonfraud losses. The Government has set Customs a target to stop the long-term growth in the size of the overall VAT gap, and to cut it from 15.7 per cent in 2002-03 to 12 per cent of the total amount that could be theoretically collected from VAT by 2005-06. This NAO report examines Customs' approach to detecting, investigating and preventing VAT fraud; tackling the most serious type of VAT fraud known as VAT missing trader intra-Community fraud; and tracking those traders operating in the shadow economy who fail to register to pay VAT.
