“It is simply too much” is a common complaint of the modern age. This book looks at how people and institutions deal with overflow - of information, consumption or choices. The essays explore the ways in which notions of overflow - framed in terms of excess and abundance or their implicit opposites, scarcity and dearth - crop up in a number of contexts such as sociological and economic theory, management

interdisciplinary way to engage with everyday activities and environments. Arguing for an innovative, ethnographic approach, it uses detailed examples, based in real world and digital research, to bring its theories to life. The book focuses on the sensory, embodied, mobile and mediated elements of practice and place as a route to understanding wider issues. By doing so, it convincingly outlines a robust theoretical and methodological approach to understanding contemporary everyday life and activism. A fresh, timely book, this is an excellent resource for
