Breitbart.com editor Jerome Hudson delivers the red pills his readers know him for, showing you the facts, statistics, and analysis that the mainstream media have worked so hard to hide Description: If you heard that one president deported more people than any other president, started the program of family separation, and did nothing to stop Russia's election meddling, how many of them would guess it was Obama? In 50 Things They Don't Want You to Know Jerome Hudson dives deeply into the things Americans are not supposed to realize. Many of our most hotly debate topics are shaped by Davos power brokers, woke college professors, TV talking heads, social media activists and feckless Washington swamp monsters who want you to only follow their narrative. Your teachers, your politicians, and your local paper are not likely to ever tell you: Racial minorities fare far better in the absence of race-based affirmative action policies. Latinos make up a little more than 50% of the Border Patrol, according to 2016 data. The U.S. settled more refugees in 2017 than any other nation. Between 2011 and 2016, the IRS documented 1.3 million identity thefts by Illegal aliens. Half of federal arrests are immigration-related. Welfare recipients in 34 states earn more than a person making minimum wage. Taxpayers doled out \$2.6 billion in food stamps to dead people in less than two years. 1,700 private jets flew to Davos to discuss the impact of global warming. Rage is an unprecedented and intimate tour de force of new reporting on the Trump presidency facing a global pandemic, economic disaster and racial unrest. Woodward, the #1 international bestselling author of Fear: Trump in the White House, has uncovered the precise moment the president was warned that the Covid-19 epidemic would be the biggest national security threat to his presidency. In dramatic detail, Woodward takes readers into the Oval Office as Trump's head pops up when he is told in January 2020 that the pandemic could reach the scale of the 1918 Spanish Flu that killed 675,000 Americans. In 17 on-the-record interviews with Woodward over seven volatile months—an utterly vivid window into Trump's mind—the president provides a self-portrait that is part denial and part combative interchange mixed with surprising moments of doubt as he glimpses the perils in the presidency and what he calls the “dynamite behind every door.” At key decision points, Rage shows how Trump's responses to the crises of 2020 were rooted in the instincts, habits and style he developed during his first three years as president. Revisiting the earliest days of the Trump presidency, Rage reveals how Secretary of Defense James Mattis, Secretary of State Rex Tillerson and Director of National Intelligence Dan Coats struggled to keep the country safe as the president dismantled any semblance of collegial national security decision making. Rage draws from hundreds of hours of interviews with firsthand witnesses as well as participants' notes, emails, diaries, calendars and confidential documents. Woodward obtained 25 never-seen personal letters exchanged between Trump and North Korean leader Kim Jong Un, who describes the bond between the two leaders as out of a “fantasy film.” Trump insists to Woodward he will triumph over Covid-19 and the economic calamity. “Don't worry about it, Bob. Okay?” Trump told the author in July. “Don't worry about it. We'll get to do another book. You'll find I was right.”

the Trump world would be complete without The Apprentice? Trump will take you behind the scenes, from the end of season one and into season two, with insights into the making and the meaning of TV's hottest show. As Donald Trump proves, getting rich is easy. Staying rich is harder. Your chances are better, and you'll have more fun, if you think like a billionaire. This is the book that will help you make a real difference in your life.

Scott Adams-a trained hypnotist and a lifelong student of persuasion-was one of the earliest public figures to predict Trump's win, doing so a week after Nate Silver put Trump's odds at 2 percent in his FiveThirtyEight.com blog. The mainstream media regarded Trump as a novelty and a sideshow. But Adams recognized in Trump a level of persuasion you only see once in a generation. Trump triggered massive cognitive dissonance and confirmation bias on both the left and the right. We're hardwired to respond to emotion, not reason. We might listen to 10 percent of a speech-a hand gesture here, a phrase there-and if the right buttons are pushed, we irrationally agree with the speaker and invent reasons to justify that decision after the fact. The point isn't whether Trump was right or wrong, good or bad. Win Bigly goes beyond politics to look at persuasion tools that can work in any setting-the same ones Adams saw in Steve Jobs when he invested in Apple decades ago. For instance- If you need to convince people that something is important, make a claim that's directionally accurate but has a big exaggeration in it. Everyone will spend endless hours talking about how wrong it is while accidentally persuading themselves the issue is a high priority. Stop wasting time on elaborate presentations. Inside, you'll learn which components of your messaging matter, and where you can wing it. Creating "linguistic kill shots" with persuasion engineering (such as "Low-energy Jeb") can be more powerful than facts and policies. Adams offers nothing less than "access to the admin passwords to human beings." This is a must-read if you care about persuading others in any field-or if you just want to resist persuasion from others.

Conrad Black, bestselling author of Franklin Delano Roosevelt: Champion of Freedom and Richard M. Nixon: A Life in Full, turns his attention to his "friend" President Donald J. Trump and provides the most intriguing and significant analysis yet of Trump's political rise. Ambitious in intellectual scope, contrarian in many of its opinions, and admirably concise, this is surely set to be one of the most provocative political books you are likely to read this year.
