To preserve humanity's survival and freedom in a hostile galaxy, Annette Bond tied her world to the ATol Imperium, taking on the mantle of Duchess of Terra to rule humanity in the Imperium's name. The ATol have provided technology, ships, and money to uplift the new Duchy of Terra, but those gifts come with strings attached.

To preserve humanity's survival and freedom in a hostile galaxy, Annette Bond tied her world to the ATol Imperium. With enough time, she can build Earth a place in the galaxy. But as Bond's many enemies gather their forces, the clouds of war threaten not only the recovering Terra but the entire Imperium.

When an alien armada destroys the United Earth Space Force and takes control of the human homeworld, newly reinstated Captain Annette Bond must take her experimental hyperspace cruiser Tornado into exile as Terra's only interstellar privateer.

Humanity's first colony is a project neither the Duchy of Terra nor the ATol Imperium can allow to fail. The planet Hope in the Alpha Centauri system has been lavished with resources and attention-but when an unknown alien force attacks the system, all of that is in danger.

An ancient power unleashed from its prison. Fleets summoned by oaths old and new alike. A rising tide of war that may consume the galaxy! Captain Morgan Casimir's mission to stop a war has ended in a nightmare. In the heart of an ignored nebula, trapped behind a ring of newborn stars, she has awoken a creature of another time: the horde of biological starships who call themselves the Infinite. Fifty thousand years ago, the Infinite drove the galaxy's Alavan Precursors to a grave mistake that destroyed all that was. Unleashed once more by the very people Morgan Casimir sought to stop, the Infinite now threaten an entirely new era. The only thing standing in their way is a fragile alliance of old enemies, determined to keep them contained in the Astoroko Nebula. But when that ancient prison fails, the galaxy must stand together-or watch the beginning of a golden age dissolve into apocalypse...

Seeking to escape the shadow of Annette Bond's success, Captain Morgan Casimir has taken a posting on the far side of the ATol Imperium. Here she hopes to begin a legend for herself that stands apart from her stepmother, the Duchess.

The mother, ruler of an entire world Sent to the heart of an old enemy to build a new peace The daughter, officer of a deadly warship Sent to the darkness to find the new enemy hunting them all

Fifty thousand years ago, the Precursors broke the universe Now great powers and small alike fight over their wreckage But in the midst of the chaos, there is a question no one asks... Why? Morgan Casimir, commander of the ATol Imperial cruiser Defiant, has seen the works of the Precursor aliens known as the Alava. She has seen their accidents threaten worlds and consume entire star fleets. Charged by her Empress to prevent a conspiracy of profiteers from finding and using a lost fleet of Alava warships, she knows unimaginable catastrophe looms if she fails. With her lover, xenoarcheologist Dr. Rin Dunst, at her side, she is sent to a hot zone on the edge of war to once again achieve the impossible. But as they search along a border flaring in violence, Morgan discovers that if the worst comes to pass, her orders are to destroy the ships rather than allow them to be taken...and she realizes that there just might be a reason seemingly godlike aliens lost an entire fleet.

A peaceful integration of the Cluster with the Star Kingdom turns violent when corrupt Solarian League bureaucrats attempt to prevent the annexation, with only Honor Harrington's newly graduated midshipmen in their way.

The enemy promises conflict and annihilation Their allies threaten betrayal and devastation A daughter of Earth raises the call of defiance And the Imperium has never knelt! When the Taljzi's genocidal invasion brought promises of aid from the oldest and greatest of the Core Powers, humanity and the Imperium looked to the Mesharom for salvation. But that salvation turns to ash as the Mesharom demand the surrender of the very weapons that saved the Imperium. Defiance leaves the Imperium facing the Taljzi without the aide of the galaxy's wisest race, but with their old enemies the Kanzi at their side, they have no choice but to end this war at any cost. But Mesharom and Taljzi alike have scattered fire and death across the stars. The Imperial forces under Fleet Lord Harriet Tanaka will need every scrap of firepower and cleverness not only to defeat their enemies...but to find them in the first place.
