Few aspects of daily existence are untouched by technology. Learning and teaching music are no exceptions and arguably have been impacted as much or more than other areas of life. Digital technologies have come to affect music learning and teaching in profound ways, influencing how we create, listen, share, consume, interact, and conceptualize musical practices and the musical experience. For a discipline as entrenched in tradition as music education, this has brought forth myriad views on what does and should constitute music learning and teaching. To tease out and elucidate some of the salient problems, interests, and issues, The Oxford Handbook of Technology and Music Education critically situates technology in relation to music education from a variety of perspectives: historical; philosophical; socio-cultural; pedagogical; musical; economic; policy, organized around four broad themes: Emergence and Evolution; Locations and Contexts; Social and Cultural Issues; Experiencing, Expressing, Learning and Teaching; and Competence, Credentialing, and Professional Development. Chapters from a highly diverse group of junior and senior scholars provide analyses of technology and music education through intersections of gender, theoretical perspective, geographical distribution, and relationship to the field. The Oxford Handbook of Technology and Music Education's dedication to diversity and forward-facing discussion promotes contrasting perspectives and conversational voices rather than reinforce traditional narratives and prevailing discourses.

The Oxford Handbook of Social Justice in Music Education provides a comprehensive overview and scholarly analyses of challenges relating to social justice in musical and educational practice worldwide, and provides practical suggestions that should result in more equitable and humane learning opportunities for students of all ages.

Take the guesswork out of BTEC assessment with sample student work and assessor feedback for all pass, merit and distinction criteria. By focusing on assessment this compact guide leads students through each pass, merit and distinction criterion by clearly showing them what they are required to do. Helps your students' to tackle the new exam with confidence with mock examination questions together with answers and feedback Provides a sample student answer for every single pass, merit and distinction criterion, together with detailed assessor's comments on how work can be improved, so that students know exactly what their work needs to show to hit their grade target Includes realistic model assignments that provide an opportunity to generate all evidence, with each criterion and grade clearly indicated. Supports students with detailed revision-style summaries of all the learning aims from the unit allowing them to quickly find the facts and ideas they will need for their assessment. Enables you to customise your course to the units you deliver when used alongside other guides in the series

Teaching and Learning in Further Education is established as an authoritative, wide-ranging introductory text for those training to work in the further education, post-compulsory education and lifelong learning sectors. It offers an easy to read picture of the practitioner's everyday working life, a thorough historical account of the FE context and excellent advice on how to improve practice and enhance professional development. Essential topics covered include: Key theorists Teaching strategies Assessment issues The diverse curriculum The nature of the student body Blended learning and virtual learning E-assessment and personal records of achievement The fourth edition will be significantly updated in light of the latest research into teaching and learning, as well as extensive changes in the field including: Revision to the professional standards for teachers, tutors and trainers in the lifelong learning sector; increased provision of HE in FE; the introduction of functional skills and the 14-19 Diploma and the shifting nature of vocational qualifications. Illustrated throughout by case studies and vignettes, and supported by reflective activities and references to well respected research and literature, Teaching and Learning in Further Education is an essential text to be used throughout an FE tutor's journey from trainee to qualified lecturer.

Written in a user-friendly style with lively features to guide students through the course. Fully revised throughout and contains new chapters on Understanding the Public Sector and Teamwork in the Public Services. Completely re-structured to cover the new grading criteria. Written by well-known author Nick Cullingworth. The most comprehensive resource available for this course.

This book uses an easy-to-follow, step by step approach which focuses on helping students to learn the practical skills needed for success in AS Applied ICT.

This book provides the underpinning knowledge to support teaching assistants (TAs) in all phases of schooling when undertaking study at a basic level. It contains practical examples of work, and ideas to try out. By actively learning about the work they do, TAs can gain greater confidence and understanding about the tasks they are asked to undertake. This guide will help TAs understand how pupils learn and shows how they can develop skills to support the teacher and various aspects of the curriculum. This book looks at the role of the TA within a whole school context, enabling TAs to understand their role in supporting the school, and taking appropriate responsibility for aspects of care, health, safety and wellbeing of pupils with whom they work, and play their full part in the school team. It can be used to support NVQs or other TA awards at level 2 and is related to the competencies described in NOS at level 2.
