Elemental 1 Antony John
Antony John was born in England and raised on a balanced diet of fish and chips, obscure British comedies, and ABBA's Greatest Hits. In a fit of teenage rebellion, he decided to pursue a career in classical music, culminating in a BA from Oxford University and a PhD from Duke University. Along the way, he worked as an ice cream seller on a freezing English beach, a tour guide in the Netherlands, a

Elemental (Elemental, #1) by Antony John
4.0 out of 5 stars Elemental by Antony John. Reviewed in the United Kingdom on 20 November 2012. YESSSS another book about elemental powers! Have I told you how much I love those? I read Storm and Spark by Brigid Kemmerer purely because of the elemental stuff, and I am quite obsessed. The elemental stuff in this book was definitely my favourite part. I loved learning about all the abilities ...

Antony John took all of these things, threw them together, and out came Elemental. It sounds like a lot of stuff, but it completely works. Thomas lives with the rest of his colony on a small Outer Banks island, isolated from the rest of the world – especially the plague-wasted mainland.

In this sequel to the dystopian fantasy-adventure ELEMENTAL, which James Dashner called "fantastic," the stakes are life-or-death and nothing is as it appears to be. Thomas and his friends have rescued the Guardians and commandeered the pirates' ship, but the pirates still hold fast to Roanoke Island. Using his newly discovered element, Thomas hears a radio message calling for refugees to head to Fort Sumter. They sail south, but quickly discover that their elements wane as they leave Roanoke behind. There is something sinister going on in the refugee colony too. From the perilous food-gathering squads, to the constant threat of rat infestation, to dangerous secrets, Thomas and his colonists begin to realize that this promising new world may be even more terrifying than the one they left behind. Fans of The Maze Runner and Ship Breaker will love the fast pace, high stakes, and touches of romance in this thrilling novel by an award-winning author.

Winner of the Schneider Book Award
The award-winning author of the Elemental series delivers a rock-and-roll novel that Lauren Myracle called " raw, fresh, funny, and authentic. "
The Challenge: Eighteen-year-old Piper has one month to get her high school 's coolest rock band Dumb a paying gig.
The Deal: If she does it, Piper will become the band 's manager and get her share of the profits.
The Catch: How can Piper possibly manage a band made up of an egomaniacal pretty boy, a talentless piece of eye candy, a silent rocker, an angry girl, and a crush-worthy nerd boy? And how can she do it when she 's deaf? Piper is determined to show her classmates that just because she 's hearing impaired doesn 't mean she 's invisible.
With growing self-confidence, a budding romance, and a new understanding of her parent 's decision to buy a cochlear implant for her deaf baby sister, she discovers her own inner rock star and what it truly means to be a flavor of Dumb.
For fans of K. L. Going 's Fat Kid Rules the World and Catherine Gilbert Murdock 's Dairy Queen.

The finale to the dystopian fantasy trilogy James Dashner called "fantastic" has a daring escape from pirates, life-or-death rescue missions, and a heartbreaking romance. Thom and his fellow colonists are in danger of paying the ultimate price to secure their homeland in this last book of the Elemental trilogy. After the shocking discovery that his mother is still alive and on Roanoke, Thom is determined to return to that island. However, the island is still under pirate control, and a mysterious boy in possession of a dangerous element appears. With the help of an unlikely ally and the newly discovered ability to combine elements, Thom must summon the full extent of his power to end this battle for their home once and for all. Packed with adventure, mystery, and romance, the gripping conclusion to the series that began with Elemental and Firenbrand is perfect for fans of Ship Breaker and Divergent.

From the award-winning author of Five Flavors of Dumb comes a novel featuring one crazy road trip full of rejection, redemption, and romance. Perfect for fans of John Green 's An Abundance of Katherines, or Sara Zarr 's Once Was Lost. Sixteen-year-old Luke 's self-help book Hallelujah has become a national bestseller and his publisher is sending him on a cross-country book tour along the historic Route 66. Unfortunately for Luke, his irresponsible older brother Matt is coming along as chauffeur. When Matt offers to drive Luke 's ex-crush, Fran, across the country too, things really get crazy. In this journey of self-discovery, Luke has to loosen up and discover what it truly means to have faith to win the girl he loves. "A highly readable balance of humor, heart, self-discovery, and shenanigans."—BCCB "Christian values are conveyed with humor, devoid of potentially preachy pitfalls."—School Library Journal "Features multifaceted teens whose faith is integrated with their thinking but doesn't define them completely . . . [A]n upbeat read with a unique premise, great settings, and just a little more."—Booklist

This witty, heartfelt story about perseverance in the face of adversity is perfect for fans of R. J. Palacio, Cammie McGovern, and John David Anderson. Noah Savino has been stuck in a wheelchair for months. He hates the way people treat him like he 's helpless now. He 's sick of going to physical therapy, where he isn 't making any progress. He 's tired of not having control over his own body. And he misses playing baseball—but not as much as he misses his dad, who died in the car accident that paralyzed Noah. Noah is scared he 'll never feel like his old self again. He doesn 't want people to think of him as different for the rest of his life. With the help of family and friends, he 'll have to throw off the mask he 's been hiding behind and face the fears that have kept him on the sidelines if he ever wants to move forward.

"Seth Crane can't believe his luck when he lands his first big movie role, but when secrets only Seth knows--things his costars told him in confidence--start showing up in tabloids, it quickly becomes clear that nothing in Hollywood is as it seems"--

I feel like I'm about to pass out, but that won't do much for my new reputation as a non-dork, so I bury my head in the Book instead. There's not much there, really—just the senior portrait of every girl in my class, and below each photo, space for me to record her measurements—once I get her measurements, that is. From his flute-playing prowess to his nerdy reputation, Kevin Mopsely epitomizes uncool. When popular jock Brandon Trent appoints Kevin to compile the Book of Busts—a record of the bust, waist, and hip measurements of every senior girl—Kevin fears he's out of his league. The Book, however, is the key to his popularity, so Kevin accepts the challenge—uncovering much more than he bargained for in the process. Busted is a hilarious and provocative debut that tackles the intricate issues of first love, testosterone-laden peer pressure, feminism, and "GRRL power" with a fresh and unique voice that will appeal to both male and female teenage readers.

"June and Day have sacrificed so much for the people of the Republic--and each other--and now their country is on the brink of a new existence. Just when a peace treaty is imminent, a plague outbreak causes panic in the Colonies, and war threatens the Republic's border cities"--

" Multiple secrets come to a boil " for a Merrick brother in a pressure cooker of a paranormal from the New York Times bestselling author of Spirit (Kirkus Reviews). Nowhere is safe. Not even home. . . . Nick Merrick is stretched to the breaking point. Keep his grades sky-high or he 'll never escape his hometown. Keep his brother 's business going or the Merricks will be out on the street. Keep the secret of where he 's going in the evenings from his own twin—or he 'll lose his family. Keep his mind off the hot, self-assured dancer who 's supposed to be his " girlfriend 's " partner. Of course there 's also the homicidal freak Quinn has taken to hanging around, and the Elemental Guide counting the hours until he can try again to kill the Merrick brothers. There 's a storm coming. From all sides. And then some. Nick Merrick, can you keep it together? Praise for Brigid Kemmerer and The Elemental Series " Magic, suspense, and enough twists to keep you reading until sunrise. An incredible start to the series!" —Erica O 'Rourke, award-winning author of Torn " Five hot guys, one tough heroine, plenty of romance and non-stop action . . . Elemental is the new series to watch. " —Inara Scott, author of The Marked " A refreshingly human paranormal romance. . . . read fast and keep that heart rate up. " —Kirkus Reviews

This handbook provides a straightforward introduction to spectroscopy, showing what it can do and how it does it, together with a clear, integrated and objective account of the wealth of information that can be derived from spectra. The sequence of chapters covers a wide range of the electromagnetic spectrum, and the physical processes involved, from nuclear phenomena to molecular rotation processes. - A day-by-day laboratory guide: its design based on practical knowledge of spectroscopists at universities, industries and research institutes - A well-structured information source containing methods and applications sections framed by sections on general topics - Guides users to a decision about which spectroscopic method and which instrumentation will be the most appropriate to solve their own practical problem - Rapid access to essential information - Correct analysis of a huge number of measured spectra data and smart use of such information sources as databases and spectra libraries
