EPS - Employment Permit System

The Employment Permit System (EPS), Korea's flagship temporary labor migration program, offers a model of global good practices in facilitating the movement of low-skilled workers. The EPS utilizes a government-to-government (G2G) arrangement and can be classified as a non-seasonal guest worker program for low-skilled labor.

Officially Bangladeshi workers started to come here under Industrial Trainee System (ITS) during the early nineties (1994). Allegation of irregularities and high migration cost compelled the Korean Government to replace Industrial Trainee System (ITS) with the present Employment Permit System (EPS) in 2004 by signing MOU with 6 (Six) countries (Philippines, Vietnam, Sri Lanka, Thailand, Indonesia and Mongolia).

Employment Permit System (EPS) ¶ Embassy of Bangladesh in ...

Employment Permit System Implemented in August, 2004 to help small and medium sized companies solve their labor shortages. It allows employers who have failed to hire native workers to legally hire an adequate number of foreign workers. It is a system that the government introduced to manage foreign workers in Korea in an organized manner.

Employment Permit System - HRDKOREA

Issue1. South Korea's Employment Permit System (EPS), introduced in 2004, was implemented by the government in response to concerns about the treatment of migrant workers in the country. Prior to the establishment of the EPS, migrant workers were brought to South Korea as ¶trainees¶treated as interns who were paid only stipends for their work and who did not fall under the country's labour laws.

South Korea's Employment Permit System A Successful ...

The changes to the EPS or Employment Permit System are official. I guess this is good news for the foreign workers in Korea as they can now work continuously for five years without interruption. The government have also stepped up in protecting the rights of foreign workers. Of course, nothing is foolproof but at least policies are being put into place.

Table 1. Low-Skilled Foreign Workers in South Korea, by Visa Type; Note: Data as of December 31 of each year. Source: Republic of Korea Ministry of Justice, Immigration Service, Employment Permit System (EPS) website, accessed February 22, 2017, available online.

The Korean labour migration system has expanded since the mid-2000s, primarily in the admission of temporary foreign workers for less skilled jobs. Its temporary labour programme, addressed largely at SMEs in manufacturing and based on bilateral agreements with origin countries, ...

Some 10 million migrant workers cross national borders each year and, if they pay an average \$1,000 to recruiters, moving workers over borders is a \$10 billion a year business. Merchants of Labor examines the businesses that move low-skilled workers over national borders, asking how much they collect from migrant workers and what can be done to reduce worker-paid migration costs. For-profit recruiters are likely to be an enduring feature of international labor migration, which makes developing tools to improve the management of their activities ever more crucial. The UN recognized in the Sustainable Development Goals for 2030 the need to measure what workers pay to get jobs in other countries with the goal of reducing worker-paid costs so that workers and their families can benefit more from international labor migration. Using cost data from over 3,000 workers, Merchants of Labor examines the often murky world of labor brokers, travel agents, and others who move low-skilled workers from one country to another in order to explore lower worker-paid migration costs. It explains the three core functions of labor markets/ recruitment, remuneration, and retention/ and shows how national borders increase recruitment costs. New data on what workers pay to get jobs in other countries are presented, and incentives to complement enforcement are explored as a way to induce recruiters to protect migrant workers.

Housing more than half of the global population, Asia is a region characterised by increasingly diverse forms of migration and mobility. Offering a wide-ranging overview of the field of Asian migrations, this new handbook therefore seeks to examine and evaluate the flows of movement within Asia, as well as into and out of the continent. Through in-depth analysis of both empirical and theoretical developments in the field, it includes key examples and trends such as British colonialism, Chinese diaspora, labour migration, the movement of women, and recent student migration. Organised into thematic parts, the topics cover: The historical context to migration in Asia Modern Asian migration pathways and characteristics The reconceptualising of migration through Asian experiences Contemporary challenges and controversies in Asian migration practice and policy Contributing to the retheorising of the subject area of international migration from non-western experience, the Routledge Handbook of Asian Migrations will be useful to students and scholars of migration, Asian development and Asian Studies in general.

This Handbook focuses on the complexity surrounding the interaction between trade, labour mobility and development, taking into consideration social, economic and human rights implications, and identifies mechanisms for lawful movements across borders and their practical implementation.

Korea 2011: Politics, Economy and Society contains concise overview articles covering domestic developments and the economy in both South and North Korea as well as inter-Korean relations and foreign relations of the two Koreas in 2010. A detailed chronology complements these articles.

Labour migration has been on the agenda of many countries around the globe at the same time as governments of both sending and receiving countries have been trying to develop regulatory mechanisms. This book opens the debate on the global politics of labour migration by proposing a re-assessment of the interaction between states regarding labour migration. Presenting case-specific scholarship from leading experts from five different continents, each contribution engages with the changing landscape of migration control and teases out emerging control patterns, dynamics and correlations that can be made between them and existing control paradigms. The multidisciplinary and global focus in 'Constructing and Imagining Labour Migration' sheds much needed light on the mechanisms deployed by states in their attempts to control labour migration and on the manner in which these mechanisms impact upon migrants themselves, leaving some caught up in the politics of labour market control

This volume investigates how larger structural inequalities in sending and receiving nations, immigrant entry policies, group characteristics, and micro level processes, such as discrimination and access to ethnic networks, shapes labor market outcomes, workplace experiences, and patterns of integration among immigrants and their descendants.

This publication analyses recent development in migration movements and policies in OECD countries and some non member countries. This edition's special chapters cover renewing ageing workforce skills and Asia in international migration.

"This book analyzes the intersections of race, class, gender and inequalities in global migration through an examination of migration policies and migrants in South Korea from undocumented workers to white elite migrants. The chapters reveal the differentiation and divergence of migration experiences due to race, class, gender, and place of origin"--
