Explore Life Cycles! takes kids on an amazing journey, where they'll learn about the changes plants and animals experience throughout their lives. Kids ages 6-9 will discover what happens inside those magical cocoons to transform a caterpillar into a butterfly. They'll explore how frogs breathe underwater as tadpoles, then use lungs as an adult. Explore Life Cycles! will examine how plants and animals are born, develop, and live their lives. Activities range from creating edible life cycles of insects to making a mealworm nursery. Using an eye-catching combination of cartoons, fun facts, and exciting projects, Explore Life Cycles! will bring the mysteries of life right into kids' hands.

The process of a new life starting is fascinating! Watch a frog grow from an egg to a hopping amphibian. Young readers will learn about the stages in a frog's life, including how and what they eat and what happens to them in the winter. The life cycle of a frog is a fun thing to see!

**Drip-Drop-Splash! Water is essential to all forms of life. Explore Water! 25 Great Projects, Activities, Experiments, captures a child's imagination with an intriguing look at the world of water. Combining hands-on activities with history and science, kids will have fun learning about the water cycle, water resources, drinking water and sanitation, water pollution and conservation, water use, water folklore and festivals, and the latest in water technology. Entertaining illustrations and fascinating sidebars illuminate the topic and bring it to life, while Words to Know highlighted and defined within the text reinforce new vocabulary. Projects include a nilometer, a rain harvester made out of plastic containers, a transpiration experiment, and a mini water wheel. Auxiliary materials include a glossary, and a list of current reference works, websites, museums, and science centers.**

How does an acorn grow into a tree? What does a baby sea horse eat? Discover the amazing stages of different life cycles and learn all about your favourite species with this stunning series. From plants and pets to exotic animals, readers will soon learn how different species are born, grow up and reproduce. Each book has amazing photographs, easy-to-understand text and discussion points for further learning.

The process of a new life starting is fascinating! Watch a sunflower grow from a seed to a tall plant. Young readers will learn about the stages in a sunflower's life as well as its appearance. The life cycle of a sunflower is a beautiful thing to see!

This stunning illustrated children's book takes an innovative look at the circle of life, including animals, dinosaurs, stars, volcanoes, and even YOU. Everything has a beginning and an end, but what happens in between? Follow the migration of zebra across the vast plains, meet penguins guarding their eggs on the ice, and watch butterflies emerge from their cocoons. Shoot back in time 4.5 billion years to see how planet Earth was formed and then leap into the future to see what happens when stars die. Discover a new life cycle every time you turn the page. You'll take a closer look at the life cycles of environments, too. Discover how a river forms and changes over time. Find out how a tree grows and all of the other life cycles it supports within it. See the amazing sculptures the ocean waves carve out of cliffs. Dive beneath the surface to see how coral reefs form, and what causes them to die. Follow the life cycles of weather--from the water cycle to ice ages, to give you a better grasp of the climate situation we find ourselves in now. From the single-celled amoeba to how the Earth formed, the life cycles in this ebook have been carefully chosen to give you an amazing overview of the universe, and how everything is intricately linked. Filled with facts to amaze your friends, stunning photography, and beautifully detailed illustrations by Sam Falconer, Life Cycles gets to grips with the essence of life itself.

Simple text introduces readers to the science behind rainbows. Including why rainbows occur and what they are made of.

\*An explanation of life cycles of different types of plants and animals, as well as people\*--Provided by publisher.  
Watch acorns grow into tall oak trees. Learn about this tree's life cycle from start to finish.
