Useful for the first three years of Secondary school, this is a three book series. It provides an introduction to the world of Science and is a helpful foundation for CXC separate sciences and CXC single award Integrated Science. Written in clear English, it is suitable for a range of abilities.

This is the first book to take a deep dive into the philosophical, social, moral, political, and religious issues tackled by Seth MacFarlane's marvelous space adventure, *The Orville*. These new essays explore what *The Orville* has to say on everything from climate change, artificial intelligence, and sexual assault, to gender, feminism, love, and care. Divided into six "acts" (just like every episode of *The Orville*), with the show as its backdrop, the book asks questions about the dangers of democracy and social media, the show's relationship to *Star Trek* and the puzzle of time travel.
