The speed and brutality of a predatory attack can shock even an experienced martial artist. The sudden chaos, the cascade of stress hormones you feel as though time slows down. In reality, the assault is over in an instant. How does anyone prepare for that? As a former corrections sergeant and tactical team leader, Rory Miller is a proven survivor. He instructs police and corrections professionals who, in many cases, receive only eight hours of defensive tactics training each year. They need techniques that work and they need unflinching courage. In Training for Sudden Violence Miller gives you the tools to prepare and prevail, both physically and psychologically. He shares hard-won lessons from a world most of us hope we never experience. Train in fundamentals,combat drills, and dynamic fighting. Develop situational awareness. Condition yourself through stress inoculation. Take a critical look at your training habits. "You don't get to pick where fights go," Miller writes. That's why he has created a series of drills to train you for the worst of it. You will defend yourself on your feet, on the ground, against weapons, in a crowd, and while blindfolded. You will reevaluate your training scenarios keeping what works, discarding what does not, and improving your chances of survival. Miller's "internal work,""world work," and "plastic mind" exercises will challenge you in ways that mere physical training does not. Sections include: Stalking Escape and evasion The predator mind Personal threat assessment This is a fight for your life, and it won't happen on a nice soft mat. It will get, as Miller says, "all kinds of messy." Training for Sudden Violence prepares you for that mess.

Looks at the differences between martial arts and violence, with information on such topics as expectations of martial arts training, thinking critically about violence, and adapting training methods to reality.

In a civilized society, violence is rarely the answer. But when it is-it's the only answer. The sound of breaking glass downstairs in the middle of the night. The words, "Move and you die." The hands on your child, or the knife to your throat. In this essential book, self-protection expert and former military intelligence officer Tim Larkin changes the way we think about violence in order to save our lives. By deconstructing our assumptions about violence-its morality, its function in modern society, how it actually works-Larkin unlocks the shackles of our own taboos and arms us with what we need to know to prevent, prepare for, and survive the unthinkable event of life-or-death violence. Through a series of harrowing true-life stories, Larkin demonstrates that violence is a tool equally effective in the hands of the "bad guy" or the "good guy"; that the person who acts first, fastest and with the full force of their body is the one who survives; and that each and every one of us is capable of being that person when our lives are at stake. An indispensable resource, When Violence is the Answer will remain with you long after you've finished reading, as the bedrock of your self-protection skills and knowledge.
