Le " must " des ouvrages de finance d'entreprise enfin disponible en français ! Edité pour la première fois en langue française, Finance Corporate couvre le cours de gestion financière enseigné dans les écoles de commerce et universités. Ce classique des ouvrages de gestion financière, adopté par les MBA les plus prestigieux, offre le plus efficace des programmes de formation en finance. A la pointe des avancées de la recherche et des pratiques de la réalité des affaires, les sept éditions successives de ce livre ont exercé une influence considérable sur le développement de la gestion financière moderne. Les auteurs analysent successivement : la valeur et la sélection des investissements ; le risque ; la structure du capital et la politique de dividende ; le financement à long terme ; les

options, les contrats à terme et la finance d'entreprise ; la finance à court terme ; les thèmes spécifiques : fusions-acquisitions, détresse financière, gestion financière internationale. Fidèles aux développements de la septième édition originale, ils proposent les adaptations nécessaires au contexte européen. Cette édition française répond aux besoins des étudiants en finance, ainsi qu'aux préoccupations quotidiennes des cadres et dirigeants des entreprises et institutions financières.

La finance d'entreprise est l'ensemble des décisions financières que doit prendre une entreprise pour maximiser ses profits et réduire ses coûts. Cette matière concerne à la fois les entreprises et ceux qui doivent les financer (banque). Différentes approches sont possibles pour percevoir et comprendre cette discipline. Ici, c'est la Loi du prix unique (ou absence d'opportunités d'arbitrage) que les auteurs ont choisi pour servir de fil conducteur à l'ensemble de l'ouvrage. Tous les concepts de la finance sont ainsi présentés au sein d'un cadre conceptuel cohérent. Ce livre couvre l'ensemble des thèmes de ce champ disciplinaire et inclut les résultats des recherches reconnues avec le souci permanent d'adopter une démarche claire insistant sur les problématiques concrètes rencontrées dans les entreprises. Enfin, la plupart des chapitres présentent les leçons à tirer pour

l'économie dans le cadre de la crise de la dette souveraine témoignant ainsi du souci des auteurs d'adapter le contenu de l'ouvrage à l'actualité. La version française de Finance d'entreprise a été intégralement adaptée à la situation en France et en Europe: la plupart des exemples, graphiques et illustrations a été modifiée ou remplacée. La plupart des cas pratiques traitent d'entreprises françaises réelles (Peugeot, RATP...). L'ouvrage propose une dizaine d'entretiens avec des professionnels français, comme Jean-François Théodore, président de NYSE-Euronext ou Jean-Paul Betbèze, directeur des études économiques au Crédit Agricole.

In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the

Fintech Revolution includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalindex.

This title explores the issue of innovation engineering, a feature that is essential to the continuation of growth and development in the commercial world. Discussion is divided into three parts: Part I covers the historical basis of innovation, noting that diversity rests upon a duality between

concepts in theory and applications put into practice, as well as discussing how innovation has resulted from the interaction of numerous factors, be they societal, human, managerial, organization or technological. Part II focuses on practical applications - the technologies, tools and methods employed in putting theoretical innovation into practice - while Part III looks at what factors underpin success, discussing the social and psychological aspects involved in successful innovation engineering. Consideration is also given to recent developments and systems which will assist in ensuring the continuation of this process in the future.

This report is the third Environmental Performance Review of France. It evaluates progress towards sustainable development and green growth, with a focus on energy transition and biodiversity.

The topic of the 43rd Congress of the International Institute of Public Finance was "Public Finance and the Performance of Enterprises." The title reflected profound changes in the thinking and approaches of economists traced back to economic developments such as the worldwide slowing down of economic growth, dwindling of productivity increases, growing unemployment, and rampant increase in public debt experienced during the 1970s and 80s. The

Congress was not primarily concerned therefore with the economic efficiency of particular enterprises, but with the interface of Public Finance and the behavior of enterprises. The intent was to detect how fiscal policy decisions effect the behavior of enterprises and how this in turn influences the overall performance of an economy--to seek microeconomic foundations for macroeconomic relationships. This volume presents the proceedings of the 43rd Congress with papers from numerous international contributors.

This bibliography lists the most important works published in economics in 1991. Renowned for its international coverage and rigorous selection procedures, IBSS provides researchers and librarians with the most comprehensive and scholarly bibliographic service available in the social sciences. IBSS is compiled by the British Library of Political and Economic Science at the London School of Economics, one of the world's leading social science institutions. La finance est en crise ; mais elle est indispensable à la vie des hommes en société. Cependant, il serait abusif de considérer "la finance" comme un tout homogène. En effet, loin de la finance conventionnelle qui fait

la une de l'actualité, il existe une finance dite alternative qui tente de placer et de maintenir l'Homme au centre de son projet et à l'horizon de son ambition. Cet ouvrage, premier du genre, se propose de présenter sous forme d'études réalisées par des spécialistes du droit financier, les manifestations de cette finance alternative, les outils, instruments et techniques juridiques qui existent et qui permettent de concilier finance et humanisme. À travers l'analyse des critères de développement durable ou religieux appliqués à la finance, des monnaies alternatives, du microcrédit, de la notation extra-financière, du mutualisme et du coopératisme en finance, du crowdfunding, des fonds éthiques, du financement associatif, du financement alternatif de l'habitat ou du soutien des collectivités publiques aux entreprises, ce livre fait, en France comme en Espagne, au Royaume-Uni, en Grèce et au Canada, un tour d'horizon complet de ce segment du secteur financier souvent méconnu et qui offre néanmoins aux Hommes de réaliser leurs projets dans la perspective d'un mieux-être collectif. Pour rompre avec l'idée que la finance n'est que spéculation et prédation.
