Solution Step I: Identify  
the given rate of  
interest.  $r = 9\%$  Step II:  
Identify the frequency at  
which interest is  
calculated.  $f = \text{quarterly}$   
 $= 4 \text{ times in a year} = 4$   
Step III: Divide the rate  
of interest by frequency  
and multiply with the

finance and the importance of sound financial management in the sport industry. It begins by covering finance basics and the tools and techniques of financial quantification, using current industry examples to apply the principles of financial management to sport. It then goes beyond the basics to show how

financial management works specifically in sport - how decisions are made to ensure wealth maximization.

Discussions include debt and equity financing, capital budgeting, facility financing, economic impact, risk and return, time value of money, and more.

The final section focuses on sport finance in three
