Book Three follows on where the two previous volumes of Frank Frazetta's art books left off. After a nice introduction by Betty Ballantine, it's straight into the art. The main difference from this volume to the previous two is that Book Three features a lot more from Frank's doodlebook, and there are quite a few rough sketches included here as well as the colour plates of his iconic art.

And the striking colors of his paintings is what I personally like best about Frank Frazetta.

Frank Frazetta's paintings and illustrations have set the standard for fantasy artists for the past 50 years. This collection focuses on his influence in a variety of media and genres and on his place in 20th century art history. Coedited by Hugo Award-winning editor Arnie Fenner, it includes many of Frazetta's most memorable paintings as well as revised works. The art is accompanied by the artist's own observations and commentary by a number of his contemporaries.

Burroughs calls up successful motifs from earlier works and recombines them in a roller-coaster fashion. The work starts as a social critique of the inner city, Chicago, but quickly moves to sea. A lost city of Japanese samurai can be found on a tiny Pacific island, and this serves as the action-filled turf of Billy Byrne, a Chicago street thug. He experiences a mutiny among pirates, encounters a lost race of Samurai head-hunter degenerates, must compete with another man for the love of beautiful Barbara, and travels to Mexico where Burroughs combines social history and the traditional Western.

Discover the world's greatest heroic fantasy artist, Frank Frazetta in the landmark collection, Fantastic Paintings of Frazetta. The New York Times said, "Frazetta helped define fantasy heroes like Conan, Tarzan and John Carter of Mars with signature images of strikingly fierce, hard-bodied heroes and bosomy, callipygian damsels." Frazetta took the sex and violence of the pulp fiction of his youth and added even more action, fantasy and potency, but rendered with a panache seldom seen outside of major works of Fine Art. Despite his fantastic subject matter, the quality of Frazetta's work has not only drawn comparisons to the most brilliant of illustrators, Maxfield Parrish, Frederic Remington, Norman Rockwell, N.C. Wyeth but, even to the most brilliant of fine artists including Rembrandt and Michelangelo and, major Frazetta works sell for millions of dollars. This innovator's work has inspired generations of artists, movies including the Conan films, John Carter of Mars, the Lord of the Rings trilogy, Robert Rodriguez' films including From Dusk Till Dawn, Ralph Bakshi films, the epic, Game of Thrones series, Tim Burton's Sleepy Hollow, Disney's animated Tarzan films, Francis Ford Coppola's Apocalypse Now and George Lucas' Star Wars. Forbes magazine said, "Which artist helped make Arnold governor? Frank Frazetta, the Rembrandt of barbarians." J. David Spurlock started crafting this book by reviving the original million-selling 1970s mass market art book, Fantastic Art of Frank Frazetta. But, he expanded and revised to include twice as many images and, presents them at a much larger coffee-table book size. The collection is brimming with classic and rare works including barbarians, beasts, and beauties. Game of Thrones creator George R. R. Martin said, "Frazetta's covers of the Conan paperback collections became the definitive picture of the character... still is." Schwarzenegger said, "When I looked at Frazetta's paintings, I tell you, it was intimidating." Game of Thrones, Conan and Aquaman film star Jason Momoa said, "I am a huge Frank Frazetta fan. That's what I wanted to bring to life." See the revolutionary art that helped inspire Schwarzenegger, Momoa, the Lord of the Rings and Game of Thrones: FRAZETTA!
