New York Times bestselling Harry Potter Film Wizardry was the first book to delve into the fascinating and intriguing world of an enormously successful film franchise. The book features interviews with cast members, including: Daniel Radcliffe (Harry Potter), Emma Watson (Hermione Granger), Rupert Grint (Ron Weasley), and Alan Rickman (Severus Snape), as well as exclusive behind-the-scenes stories from the producer on all eight films, David Heyman, director David Yates, and production designer Stuart Craig. In this new, updated edition, readers will now be able to explore all eight of the films. This revised edition will include additional pages about the final two film installments and also feature a large blueprint of the layout of Hogwarts and a Ministry of Magic poster warning against Death Eaters. The interior features high-quality, close-up pictures of the props, sets, costumes, and special effects that bring depth to Harry's world. It is loaded with never-before-seen concept art and photos from Dumbledore's embroidered robes to the sets of Diagon Alley. The book will answer questions such as: How was Dobby created? How was Hedwig trained? How did the filmmakers bring the game of Quidditch to the big screen? In short: How does the movie magic happen? It will go beyond the usual moviemaking books by offering reproductions of production memos, notes from filmmakers, cast interviews, and fabulous bells and whistles, providing a truly interactive reading experience.

Before Pierre Deux's French Country enchanted the world with the warmth and exuberant spirit of Provencal design, the charms of French Country style had remained hidden behind the closed doors of the farmhouses, chateaux and auberges that dot the countryside of France. This seminal book revealed a unique aesthetic that has evolved over hundreds of years to arrive at a look that is perfectly adapted to its time and place. Now, Linda Dannenberg, co-author of French Country, returns to Provence to capture not only the best of the old traditions but also to present the latest design developments and trends in le style provençal. New French Country takes you on privileged tours that include a lavish apartment in Avignon, a lushly landscaped estate in the Luberon and an antique ochre mill in Roussillon, treating you to a fascinating narrative about local customs and handicrafts. In addition to chapters on the colours, fabrics, furniture, pottery, architectural elements and gardens of Provence, New French Country includes an extensive directory to the best the region has to offer, and an overview of its most charming shops and most accomplished artisans.

For 70 years, this enchanting and unique volume lay undiscovered until, in 1977, a full-colour facsimile edition was published by Michael Joseph (UK), capturing all the freshness, charm and beauty of the original. It was an instant and lasting international success. "The Country Diary of an Edwardian Lady" is a reproduction of a naturalist's diary for the year 1906. Edith Holden recorded in words and paintings the flora and fauna of the British countryside through the changing seasons. Her words, all carefully written by hand, include her favourite poems, personal thoughts, and observations on the wildlife she saw surrounding her home in Warwickshire and on her travels through England and Scotland.

Current Research in Egyptology 2018 is a collection of papers and posters presented at the nineteenth symposium of the prestigious international student conference, held at the Faculty of Arts, Charles University in Prague on 25th–28th June 2018.
