The UK's No.1 GCSE Science Books! CGP's GCSE Science range is packed to the rafters with everything you need for the Grade 9-1 courses. We have outstanding revision and practice for all exam boards, whichever level you're working at!

A revision guide, covering all the material in the AQA Science GCSE specification.

Exam Board: WJEC Level: GCSE Subject: Science First Teaching: September 2016 First Exam: Summer 2018 Target success in Science with this proven formula for effective, structured revision; key content coverage is combined with exam-style tasks and practical tips to create a revision guide that students can rely on to review, strengthen and test their knowledge. With My Revision Notes, every student can: - Plan and manage a successful revision programme using the topic-by-topic planner - Consolidate subject knowledge by working through clear and focused content coverage - Test understanding and identify areas for improvement with regular 'Now Test Yourself' tasks and answers - Improve exam technique through practice questions, expert tips and examples of typical mistakes to avoid - Get exam ready with extra quick quizzes and answers to the practice questions available online Please note that some of the quizzes from the WJEC GCSE My Revision Notes series are also used in the WJEC GCSE Teaching and Learning resources.

Learning to Teach Science in the Secondary School is an indispensable guide with a fresh approach to the process, practice and reality of teaching and learning science in a busy secondary school. This fourth edition has been fully updated in the light of changes to professional knowledge and practice and revisions to the national curriculum. Written by experienced practitioners, this popular textbook comprehensively covers the opportunities and challenges of teaching science in the secondary school. It provides guidance on: • the knowledge and skills you need, and understanding the science department at your school • development of the science curriculum • the nature of science and how science works, biology, chemistry, physics and astronomy, earth science • planning for progression, using schemes of work to support planning, and evaluating lessons • language in science, practical work, using ICT, science for citizenship, Sex and Health Education and learning outside the classroom • assessment for learning and external assessment and examinations Every unit includes a clear chapter introduction, learning objectives, further reading, lists of useful resources and specially designed tasks – including those to support Masters Level work – as well as cross-referencing to essential advice in the core text Learning to Teach in the Secondary School, sixth edition. Learning to Teach Science in the Secondary School is designed to support student teachers through the transition from graduate scientist to practising science teacher,

while achieving the highest level of personal and professional development.

Student Unit Guides are perfect for revision. Each guide is written by an examiner and explains the unit requirements, summarises the relevant unit content and includes a series of specimen questions and answers. There are three sections to each guide: Introduction - includes advice on how to use the guide, an explanation of the skills being tested by the assessment objectives, an outline of the unit or module and, depending on the unit, suggestions for how to revise effectively and prepare for the examination questions. Content Guidance - provides an examiner's overview of the module's key terms and concepts and identifies opportunities to exhibit the skills required by the unit. It is designed to help students to structure their revision and make them aware of the concepts they need to understand the exam and how they might analyse and evaluate topics. Question and Answers - sample questions and with graded answers which have been carefully written to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.

Exam Board: WJEC Level: GCSE Subject: Chemistry First Teaching: September 2016 First Exam: June 2018 Welsh edition. Expand and challenge your students' knowledge and understanding of Chemistry with this textbook that guides students through each topic within the new curriculum; produced by a trusted author team and the established WJEC GCSE Science publisher. - Test understanding and reinforce learning with differentiated Test Yourself questions, Discussion points, exam-style questions and useful chapter summaries. - Provide support for all required practicals along with extra tasks for broader learning. - Support the mathematical and Working scientifically requirements of the new specification with opportunities to develop these skills throughout. - Supports the separate science Chemistry and is also suitable to support the WJEC GCSE Science (Double Award) qualification.

A revision guide covering the core content of the OCR Science B (single award) specification from the Gateway Science suite.

First published in 1924, 'Which School?' brings together in one volume a wide range of information and advice, updated annually, on independent education for children up to the age of 18 years.

Foundation Book 1 is developed for those taking the Foundation Tier Single Award modules and Foundation Book 2 is for the Foundation Tier Double Award Modules. The features include: a clear identification of Topic Areas, Learning Outcomes, Key Facts and Did You Know? sections. Each module is covered in self-contained units. Practice questions are included in every section for confidence building and thorough exam preparation. Support for Book 1 can be found in Teacher Support Pack Book 1.

Provides information for students wishing to narrow their choice of course before turning to prospectuses - saving them precious time when they need it most. Grouped by study field, this volume is divided into subject chapters with courses arranged alphabetically by title and institution.

Board-specific Teacher Support Packs provide advice and assistance on how to approach this new qualification. This Pack is appropriate for OCR and includes information on how to prepare students for external assessment and how to assist them in preparing their portfolios.
