Book 9 in the 299 Days Series

In some ways, post-Collapse life at Pierce Point resembles the every day normalcy that Grant and others still hoped would return. The community is organized and humming along smoothly, the young guys on the Team are partnering off with local "Team Chicks," and Grant's daughter has found a boyfriend. For most, the new reality has been accepted and a calm, self-sustaining groove is setting in. For others, though, life is far from normal. Special Forces Ted returns with an offer that cannot be refused. In the blink of an eye, Grant Matson has another title he can add to father-of-the-year and prepper-in-chief: Lieutenant Grant Matson, Commander of the 17th Irregulars. Grant and the Team are whisked away to Marion Farm, where they will train civilians and be trained to become a special squad in a Special Forces guerrilla group. The slower, simple life at Pierce Point is about to disappear to make way for a community that is well-trained and battle-ready, posed to fight the Loyalist opposition. This cannot happen fast enough, though. Gangs are growing steadily and the government is becoming a bigger threat to freedom and the nation. Violence is turning into an everyday occurrence outside of Pierce Point and it is only a matter of time before the peaceful community will need to protect itself from external dangers. Grant feels the weight on his shoulders as he now needs to protect not just his family, but the entire community, and possibly, all of Washington State.

Grant Matson has established himself as the leader of Pierce Point, and he begins teaming up with others who will help the community become a patriot stronghold, ready to stand up against government Loyalists, the Undecideds and the Oblivious. Using the United States constitution as their guide, they develop a sense of order and begin planning for a future that shows no sign of improving.

Glen Tate has led an amazing life - and one that took a surprising turn. He grew up poor in the rural logging town of Forks, Washington. He worked hard to become a successful professional with a job in the political arena. Thinking he'd finally made it and everything was great, he was stunned to see how corrupt government is. From his observations at his job, he realized that America is collapsing and bad things are coming. Very soon. He began to prepare for him and his family to make it through the civil unrest of the coming collapse. That meant he had to return to his rural roots - quite a shock to his family and friends. Even more amazing was that he wrote down what he foresees happening during the collapse and it became a ten-book novel series published by Prepper Press.

Grant Matson reunites with his family after his wife, children, and in-laws accept that the only way to survive the Collapse is to flee the comfort of their suburban lives and join him at his isolated cabin in the woods. With riots becoming more violent, power outages more widespread, and the military crumbling, Grant and others throughout Washington state realize they must organize if they want to endure.

In this final book of the 299 Days series, The 43 Colonels celebrates the many "ordinary" men and women who did extraordinary things during and after the Collapse. Set in the chambers of the New Washington Legislature during a joint session of the House and Senate, Governor Ben Trenton honors Colonel Grant Matson and 42 other individuals who helped start the Restoration. From a personal trainer who became a spy disguised as a water boy, to a homeschooling mom who protected children's minds from Loyalist propaganda, to a young computer hacker who used his skills to get classified information to Oath Keepers, and a Special Forces operative who conducted some amazing missions, the stories of these modern-day Patriots, both heart-wrenching and inspirational, demonstrate how anyone can help in a revolution.

Grant Matson is on the run from a murder rap and from the approaching collapse of society.

Picking up where The Preparation ended, the collapse begins to unfold in this second book of the 299 Days series. In The Collapse, the government stops working, guns and ammo are in high demand, and a trip to the gas station has become a mission rather than an errand. Grant and the Team see these warning signs and know it is only the beginning, so they begin taking action to protect themselves and their loved ones. As they prepare to get out of dodge after a deadly incident in Grant's neighborhood, they will soon learn whether the preparations they made in Book One will be enough to survive the breakdown of society, or if they don't stand a chance against greed and violence in the face of a collapse. The resulting chaos and fear that begins to envelop the country will strip all of the characters of what they know to normal, and will require them to question what they will stand for, what they will stand up against, and, most importantly, who they will stand with.
