"Epidemics Resulting from Wars" by Friedrich Prinzing. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

A catalogue of fifteenth and sixteenth century German paintings in the National Gallery of Art, Washington DC.

First published in 1996, this comprehensive guide to the history of Britain and its peoples will be indispensable reading for the general enthusiast, as well as students. It is packed full of fascinating detail on everything from Hadrian's Wall to the Black Death to Tony Blair. The book was assembled over more than thirty years and has seen updates in three editions. "He has done for historical encyclopaedias what Samuel Johnson did for dictionaries." Andrew Roberts, The Daily Telegraph "An astonishing synthesis of information." Roger Scruton, The Times "An astonishing achievement, a compelling book for dipping into, a splendid work." Simon Hoggart, The Guardian "This marvellous book, which contains tens of thousands of historical facts will enlighten, amuse, and inform. Every home should have one." Simon Heffer, The Daily Mail "If you were marooned on that mythical desert island with only one history book, this would be the one to take. Buy three copies – one for the children, one for the grandchildren- and one for yourself." John Charmley, The Daily Telegraph

Washington was rarely isolated from the world during his eventful life. His diary for 1751-52 relates a voyage to Barbados when he was nineteen. The next two accounts concern the early phases of the French and Indian War, in which Washington commanded a Virginia regiment. By the 1760s when Washington's diaries resume, he considered himself retired from public life, but George III was on the British throne and in the American colonies the process of unrest was beginning that would ultimately place Washington in command of a revolutionary army. Even as he traveled to Philadelphia in 1787 to chair the Constitutional Convention, however, and later as president, Washington's first love remained his plantation, Mount Vernon. In his diary, he religiously recorded the changing methods of farming he employed there and the pleasures of riding and hunting. Rich in material from this private sphere, The Diaries of George Washington offer historians and anyone interested in Washington a closer view of the first president in this bicentennial year of his death.

"Throughout this scrupulously researched interpretation of The Federalist papers, Carey provides a glimpse of our

Republic's original design. He shows us what kind of federal union The Federalist's authors had in mind, and indicates how we have strayed from their intent." -- Paul Gottfried, National Review "The best book yet published on The Federalist." -- Paul Peterson, The Review of Politics "Serious scholars of American politics will find it stimulating and useful in deepening their own understanding of the American regime." -- Charles E. Umbanhowar, Perspectives on Political Science "Likely to become a classic in its own right. The Federalist is excellent: well organized, carefully considered, incisive, lucid, concise, and masterful." -- Ellis Sandoz, author of A Government of Laws: Political Theory, Religion, and the American Founding
