resolved if international trade is to be developed. Each chapter in The Halal Food Handbook is written by leading experts in their particular field of study. The first one discusses how regulatory bodies have failed to stem the miss selling and adulteration of Halal foods. The next chapters cover the slaughter process and issues around good practice. The book then looks at regulators—covering Sharia law, UK national laws, and the EU—and outlines the legal framework for enforcing the law. It also compares and contrasts different types of religious slaughter for faith foods; examines attempts to set an international standard for trade; and discusses pork adulteration in Halal foods. The final chapter covers other aspects of

an exploration of the role of halal production, trade, and standards. Fischer explains how the global markets for halal comprise divergent zones in which Islam, markets, regulatory institutions, and technoscience interact and diverge. Focusing on the "bigger institutional picture" that frames everyday halal consumption, Fischer provides a multisited ethnography of the overlapping technologies and techniques of production, trade, and standards that together warrant a product as "halal," and thereby help to format the market. Exploring global halal in networks, training, laboratories, activism, companies, shops and restaurants, this book will be an essential resource to scholars and students of social science

manufacturers, restaurants, shops, certifiers and consumers around the world are faced with ever stricter and more complex kosher and halal requirements – most clearly exemplified by Muslim and Jewish groups' call for kosher and halal certification by third party certification bodies. During this period hundreds of halal and kosher certifiers have emerged around the world, and while thousands of manufacturers, restaurants, and shops have been certified, the majority have not. While kosher and halal requirements are comparable there are also many differences and the book discusses how these similarities and differences affect production, trade and regulation around the world. The proposed

handbook is to a large extent based on extended periods of research carried out among states bureaucracies, manufacturers, restaurants, shops, certifiers, and consumers. There is a pressing need to address kosher and halal markets simultaneously; many companies that have undergone kosher certification indicate that halal certification is more easily acquired if the company is kosher certified in the first place. John Lever and Johan Fischer characterize the expanding kosher and halal markets and explain how businesses can comply with rising demands.
