In the aftermath of a deadly alien invasion, a band of survivors fights on... In a world gone to hell, Elle Milton-once the darling of the Sydney social scene-has carved a role for herself as the communications officer for the toughest commando team fighting for humanity's survival-Hell Squad. It's her chance to make a difference and make up for horrible past mistakes...despite the fact that its battle-hardened commander never wanted her on his team. When Hell Squad is tasked with destroying a strategic alien facility, Elle knows they need her skills in the field. And Marcus will learn just how much he'll sacrifice to keep her safe.

Sienna Rossi has always been a mix of contradictions. She loves ice cream, likes cooking, and is skilled at taking down aliens with her squad. Sweet and tough, soldier and woman, most people can't seem to make sense of her...even the loving family she lost in the invasion and especially men. One man accepts her as she is, her best friend Theron. But the big, silent, muscled soldier has her firmly in the 'friends' zone...except that Sienna knows he wants her, and she's determined to claim the stubborn man as hers. Theron Wade lives to fight aliens. They killed his parents, his foster siblings, and his fellow Rangers. Now he has a new team-the tough, mostly-female Squad Nine. But one certain female haunts his dreams and stars in his darkest fantasies. Sienna is his sunshine in the darkness. He wants to her to be happy...and he knows that would never be with a man like him. A man with darker, rougher tastes that would shock her. As Squad Nine works to track and destroy a dangerous alien device, best friends collide. Theron introduces Sienna to a world of rough, edgy passion that she craves. But as a mission goes off track, the two of them will risk everything for love, for their lives, and to save the world.

What would you do if America and the world were invaded tomorrow by a relentless and brutal enemy?In an alternate 2015, a US Army Special Forces Team, part of the legendary black ops unit "Delta", is in midtown Manhattan to take out a Chinese spy and his handlers, sending a message short of outright conflict. All goes smoothly until they find themselves in a full blown shooting war through the canyons of the City. Portals from another world have opened in Central Park, making a way for figures out of historical nightmare to invade. The Fae, creatures banished from Earth thousands of years ago and now only part of our legends, have returned with Dragon fire, spell and sword to conquer and take revenge.The first volume of The Fae Wars covers Team Three, G squadron, Special Forces Detachment (Delta) as they fight their way off Manhattan and then join the defense of the refugees as the Fae assault the bridges. The fabled 69th Infantry puts up an epic fight against superior weaponry and then the war descends into the asymmetric hell that the Delta Operators know so well. Along the way they find new allies and old powers that come to their aid.

When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear-England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Between 1887 and 1927, Sir Arthur Conan Doyle wrote sixty Sherlock Holmes stories, and his great Canon has become the most praised, most studied, and best-known chapter in the history of detective fiction. Over twenty thousand publications pertaining to the Sherlock Holmes phenomenon are known to have been published, most of them historical and critical studies. In addition, however, almost since the first stories appeared, such was their uniqueness and extraordinary attraction that other authors began writing stories based on or derived from them. A new genre had appeared: pastiches; parodies; burlesques; and stories that attempted to copy or rival the great detective himself. As the field widened, there was hardly a year in the twentieth century in which new short stories or novels did not appear. Many hundreds are now known to have been published, some of them written by authors well-known for their work in other literary fields. The non-canonical Sherlock Holmes literature not only constitutes a literary field of considerable historical interest, but includes many stories that are both enjoyable and fascinating in their own right. Although a large bibliography on these stories exists, and a few limited anthologies have been published, no attempt has previously been made to collect them all and discuss them comprehensively. The Alternative Sherlock Holmes does so: it provides a new and valuable approach to the Sherlock Holmes literature, as well as making available many works that have for years remained forgotten. Presented as an entertaining narrative, of interest to both the aficionado and the scholar, it provides full bibliographic data on virtually all the known stories in the field.

A message appears on the moon. It is legible from Earth, and almost no one knows how it was created. Markus West leads the government's investigation to find the creator. The message is simple and familiar. But those three words, written in blazing crimson letters on the lunar surface, will foster the strangest revolution humankind has ever endured and make Markus West wish he was never involved. The message is 'Drink Diet Coke.' When Coca-Cola denies responsibility, global annoyance with the beverage-industrial complex becomes indignation. And when his investigation confirms Coca-Cola's innocence, Markus West becomes one of the most hated men on Earth. Later, five miles above the White House, a cylinder is discovered floating in the night. It is 400 feet tall, 250 feet in diameter, and exactly resembles a can of Campbell's Chicken Noodle Soup. Nearly everyone thinks the cylinder is a promotional stunt gone wrong, just like the lunar advertisement. And this is exactly what the alien in the cylinder wants people to think. Ralph, an eccentric extraterrestrial who's been hiding on the moon, needs Markus's help to personally deliver a dark warning to the White House. Ralph has a big heart, a fetish for Andy Warhol, and a dangerous plan to save the world. Looking upon the cylinder, Markus realizes we are not the ones in control. The unexpected guest becomes the host, and somehow humans never belonged: "We are the homeless orphans peeking through the banquet window. We are the frills of the universe gazing upon something unspeakably more central than ourselves."

Roth Masters is a protector to the bone. Driven by the losses of his past, he fights side-by-side with Hell Squad to protect the human survivors of the alien invasion. As leader of Squad Nine, he and his team are known for their perfect timing in a firefight. But Roth knows they need more intel on the raptor invaders-something to turn the tide of the battle. And he knows the woman he rescued from an alien facility is hiding secrets he desperately wants to uncover. Former Coalition Central Intelligence Agent Avery Stillman is still adjusting to her new life. Left with terrible gaps in her memory, she has vague recollections of failed negotiations with the aliens, the invasion, and after that...nothing. Until a hard-bodied soldier pulled her from a tank in an alien lab. Now she's trying desperately to remember, to help fight back, and also battling the crazy attraction to the man who keeps pushing her for things she can't remember. Soon Roth finds himself torn between his duty and keeping the strong woman he's falling for safe. As the pair head into alien territory to investigate, they are attacked and crash land alone, far from base. They have to work together to survive the aliens, but when Avery finally remembers everything...her secrets could annihilate all they hold dear.

A novel in the Wold Newton universe, in which characters such as Sherlock Holmes, Flash Gordon, Doc Savage, James Bond and Jack the Ripper are all mysteriously connected.
