Undying Mercenaries Series by B.V. Larson

Dust World Originally coming out in 2014, this was first published on the 28th of March for the Kindle once again, thus marking the second title in the now much anticipated 'Undying Mercenaries' series. Continuing on from where the last left off, it manages to progress much of the action too, allowing it to develop and evolve in the process.

In the twentieth century Earth sent probes, transmissions and welcoming messages to the stars. Unfortunately, someone noticed. The Galactics arrived with their battle fleet in 2052. Rather than being exterminated under a barrage of hell-burners, Earth joined their vast Empire. Swearing allegiance to our distant alien overlords wasn't the only requirement for survival. We also had to have something of value to trade, something that neighboring planets would pay their hard-earned credits to buy. As most of the local worlds were too civilized to have a proper army, the only valuable service Earth could provide came in the form of soldiers...someone had to do their dirty work for them, their fighting and dying. I, James

McGill, was born in 2099 on the fringe of the galaxy. When Hegemony Financial denied my loan applications, I was kicked out of the university and I turned to the stars. My first campaign involved the invasion of a mineral-rich planet called Cancri-9, better known as Steel World. The attack didn't go well, and now Earth has entered a grim struggle for survival. Humanity's mercenary legions go to war in STEEL WORLD, bestselling author B. V. Larson's latest science fiction novel.

The Galactics arrived with their Battle fleet in 2052. Rather than being exterminated under a barrage of hell-burners, Earth joined a vast Empire that spans the Milky Way. Our only worthwhile trade goods are our infamous mercenary legions, elite troops we sell to the highest alien bidder. In 2122 a lost colony expedition contacts Earth, surprising our government. Colonization is against Galactic Law, and Legion Varus is dispatched to the system to handle the situation. Earth gave them sealed orders, but Earth is thirty-five lightyears away. The Legion commanders have a secret plan of their own. And then there's James McGill, who was never too good at listening to authority in the first place... In DUST WORLD, book two of the Undying Mercenaries Series, McGill is promoted to Specialist and sent to a frontier planet outside the Empire. Earth's status within the Empire will never be the same.

Unknown aliens attack Earth. Their planet is uncharted, mysteriously having avoided detection for centuries. It's a world packed with the most vicious aliens humanity has yet to encounter. James McGill has discovered: DEATH WORLD. In the fifth book of the Undying Mercenaries series, the war comes home and aliens strike a devastating blow. Bent on revenge, Legion Varus chases the raiders to the stars and discovers a growing alien menace. A cancerous species has invaded our region of the galaxy and must be dealt with. McGill learns why the Cephalopod Kingdom has yet to attack Earth and what's happening behind the scenes in the Core Worlds. Throughout, he upholds his unique sense of right, wrong and honor. DEATH WORLD is a military science fiction novel by bestselling author B. V. Larson.

When humanity reaches for the stars, our probes are destroyed. They crash into an incredibly advanced piece of technology: a massive force-field. Unknown beings have placed a barrier around our star and planets, enclosing us within. We're locked inside a Great Sphere. Was this invisible obstacle built to imprison us-or to protect us? No one knows the truth, but it soon becomes clear the barrier has leaks. Aliens infiltrate and try to sabotage our efforts to escape our cage. A warship crewed by military people and scientists beta-test an engine designed to

Read Online Home World Undying Mercenaries Series Book 6

pass through the barrier. Chief Gray, a security officer from Control, is assigned to help. His mission is critical: Earth must escape her bonds at all costs, even if it means war with our hostile neighbors. War of the Spheres is a new novel by James Millington and B. V. Larson, a bestselling SF author with over three million copies sold.

Jevik travels to the city of Olondria where he is overtaken by a ghost from his past.

In his quest for total domination, Darth Sidious compiled six legendary dark side texts detailing Sith history and philosophy by Sorzus Syn, Darth Malgus, Darth Bane, Mother Talzin, Darth Plagueis, and himself. Together these documents form the Book of Sith. Over the centuries, the texts were passed among Force users who left handwritten notes and annotations in the margins, including Darth Vader, Yoda, Mace Windu, and Luke Skywalker, among others. Collected by acclaimed Star Wars writer Daniel Wallace and embellished by numerous esteemed Star Wars illustrators, this volume introduces new characters and history, and delves deeper into understanding the philosophies and methods behind the dark side of the Force.

Two ships launch, but only one can come home with the prize—and no one suspects what they'll find when they get out there. On June 30, 1908 an object fell from the sky

releasing more energy than a thousand Hiroshima bombs. A Siberian forest was flattened, but the strike left no significant crater. The anomaly came to be known as the Tunguska Event, and scientists have never agreed whether it was the largest meteor strike in recorded history-or something else. Alien Artifacts have been uncovered since the 1908 event, and a new star drive is discovered. When another, larger Artifact is detected orbiting Jupiter, both NASA and the Russian Federal Space Agency are determined to beat all rivals to the next treasure trove of alien tech.

From New York Times bestseller and Hugo Award-winner John Scalzi, a wild-and-woolly caper novel of interstellar diplomacy A human diplomat creates an interstellar incident when he kills an alien diplomat in a most . . . unusual . . . way. To avoid war, Earth's government must find an equally unusual object: a type of sheep ("The Android's Dream"), used in the alien race's coronation ceremony. To find the sheep, the government turns to Harry Creek, ex-cop, war hero and hacker extraordinaire, who, with the help of a childhood friend turned artificial intelligence, scours the earth looking for the rare creature. But there are others with plans for the sheep as well. Mercenaries employed by the military. Adherents of a secret religion based on the writings of a 21st century SF author. And alien races,

Mercenaries Series Book 6

eager to start a revolution on their home world and a war on Earth. To keep our planet from being enslaved, Harry will have to pull off a grand diplomatic coup, a gambit that will take him from the halls of power to the lava-strewn battlefields of alien worlds. There's only one chance to get it right, to save the life of the sheep—and to protect the future of humanity.

The planet Jupiter, thrown off orbit, is poised to hit Earth in 97 years. Project Ark is humanity's only hope for salvation, and one man, traveling alone, must find a suitable location for the entire population. Major Jonathan Ryan, fighter pilot, is the one chosen for the unenviable task. With his consciousness transferred to an android, he takes the helm of Ark 1 to search the farthest reaches of space for a new home. He understands the implications of his mission all too well: he will not age, and by the

Read Online Home World Undying Mercenaries Series Book 6

time he returns home all the people he knew will be dead. His lone companion on the quest is the ship's irritable AI. Jon will not only be pushed to the extremes of human exploration, but the extremes of his own psychological limits. The Forever Life follows the solo mission of a resourceful and resilient fighter, as Jon encounters unexpectedly hostile natives on the various planets he visits. He is able to befriend precious few. But as time goes by, all communications with his superiors gradually cease, leaving him in an eerie silence with more questions than answers. The home he left may have turned its back on him, but his mission still stands: save humanity, even when it refuses to save itself.
