electricians and installers across the country. The book provides comprehensive coverage of wiring and technical specifications, and now includes increased coverage of combination boilers, recently developed control features and SEDBUK (Seasonal Efficiency of Domestic Boilers in the UK) boilers ratings, where known. In addition to providing concise details of nearly 500 different boilers fuelled by electric, gas, oil and solid fuel, and over 400 programmers and time switches, this invaluable resource also features numerous easy-to-understand wiring diagrams with notes on all definitive systems. Brief component descriptions are provided, along with updated contact and website details for most major manufacturers. Ray Ward has spent over 20 years as a specialist in the field of wiring domestic central heating systems and the knowledge he has gained from hands-on experience and staff training is now brought together in this comprehensive handbook.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

Research has shown that the vast majority of children throughout Europe have experienced some form of corporal punishment. This publication considers how to raise public awareness against the use of corporal punishment, drawing on case studies of three successful public education campaigns in the UK, Poland and the United States. Issues considered include how to plan a campaign, target groups, and conducting media campaigns and local activities. It also includes three model questionnaires aimed at support services for children and families, for children and for professionals.

“ A lovely and loving book. ” —Will Schwalbe, New York Times bestselling author of *The End of Your Life Book Club* "I'm not sure I have ever read a book about movies that is as tender and open-hearted as *Films of Endearment*."—Mark Harris, New York Times bestselling author of *Mike Nichols: A Life* A poignant memoir of family, grief and resilience about a young man, his dynamic mother and the '80s movies they shared together Michael Koresky's most formative memories were simple ones. A movie rental. A mug of tea. And a few shared hours with his mother. Years later and now a successful film critic, Koresky set out on a journey with his mother to discover more about their shared cinematic past. They rewatched ten films that she first introduced to him as a child, one from every year of the '80s, each featuring women leads. Together, films as divergent as *9 to 5*, *Terms of Endearment*, *The Color Purple* and *Aliens* form the story of an era that Koresky argues should rightly be called "The Decade of the Actress." *Films of Endearment* is a reappraisal of the most important and popular female-driven films of that time, a profound meditation on loss and resilience, and a celebration of the special bond between mothers and their sons.
