The front cover of this book depicts the true and fatal wounds to President John F. Kennedy that was never revealed by the Warren Commission or by the official autopsy report. Instead, the United States Government and high ranking government officials responsible for the assassination of President Kennedy covered up the truth in an attempt to hide the coup de tat assassination. This is the story of Jimmy Sutton the Mafia Grassy Knoll Shooter who fired the fatal shot to the right temple of President Kennedy ordered and carried out by Organized Crime. Lee Harvey Oswald never fired a shot at President Kennedy. The author Robert Clayton Buick who was aware of the plot prior to the assassination of President Kennedy pulls no punches as he clarifies and substantiates every element of the hit on the President of the United States, the crime of the century for financial gain, political power and vengeance. This is a nonfictional and true depiction of what really happened that fateful day in Dallas.

This comprehensive guide provides a commonsense approach to keeping a horse healthy, sound, and happy by encouraging horse owners to center horse-keeping practices around the horse's needs.
